## ROOM FOR IMAGINATION

### THE WORLD'S LEADING CERAMIC LIFESTYLE BRAND.

As a ceramics expert,  
we help create icons.  
We help build marvels.

Our expertise ensures that quality is always ideal  
and that integrated solutions and reliable  
advice is always within reach.

That every detail, big or small, is accounted for  
and exceptional is always attainable.

Because iconic spaces  
are not created by honouring the boundaries of  
what is possible.  
They're not designed by restricting imagination.

Iconic spaces  
are born through a passion  
to prove that there is always an exception to  
every rule.

That functions,  
colours,  
shapes and sizes  
do not limit  
but give room for possibilities.  
Indeed, to build remarkable spaces,  
is to defy logic and set inspiration free.

This is what moves us.

We give room to embrace whatever inspiration,  
room to define quality,  
room to create without limitations.

Today,  
and tomorrow.

No matter the ambition,  
no matter the challenge,  
we give **room for imagination**

CERAMICS

## THE COMPANY

### THE WORLD'S LEADING CERAMIC LIFESTYLE BRAND.

RAK Ceramics is one of the largest ceramics' brands in the world.

Specialising in ceramic and gres porcelain wall and floor tiles and sanitaryware.

we produce 110 million square metres of tiles and 5 million pieces of sanitaryware per year

at our 16 state-of-the-art plants across the United Arab Emirates, Indian, Bangladesh and Iran.

Headquarters in the United Arab Emirates, we serve clients in more than 150 countries through our network of operational hubs in Europe, Middle East and North Africa, Asia, North and South America and Australia.

Across our global operations we employ approximately 15,000 staff from more than 40 nationalities.

We are a Publically listed company on the Abu Dhabi Securities Exchange in the United Arab Emirates and on the Dhaka Stock Exchange in Bangladesh and as a group have an annual turnover of approximately US\$1 Billion.

## Latest technology and manufacture

RAK Ceramics is internationally recognized for the high quality of its sanitary ceramics. This quality comes from carefully selected premium raw materials that ensure a perfect finish of the products. Better ingredients, better sanitaryware!

At RAK Ceramics we are not just ceramic experts. We manufacture also seat covers, acrylic bathtubs and showertrays.

## The Ultimate Rimless Technology for your bathroom

RAK Ceramics delivers the ultimate in technology for bathroom suites.

Based on similar design specifications to sanitaryware in hospitals and medical centres, RAK Ceramics Rimless water closets allows you to experience the same high standards of hygiene in your own home.

RAK Ceramics continues to set new standards of hygiene and water efficiency in the sanitaryware industry, with uniquely engineered water flushing systems that effectively remove waste, helping to keep bathrooms fresh and hygienic.

EASY TO CLEAN,  
WITH LOW WATER CONSUMPTION.

Water Saving

Easy Cleaning

Silent

Hygienic

No ledges or rim

Rimless

## WATER SAVING

### Can we save water in our bathrooms?

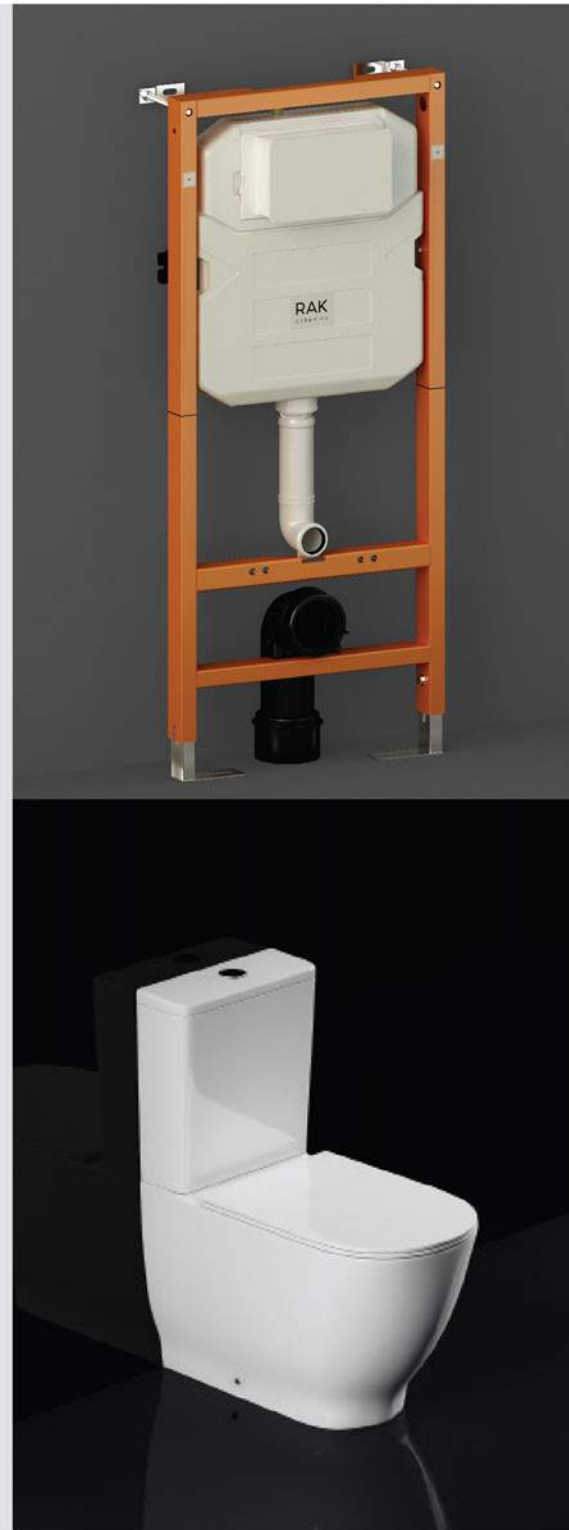

One of the easiest ways to save water is to install a toilet with a dual-flush cistern.

Dual-flush cisterns let the user choose how much water to use when flushing the toilet and they are designed for wall-hung, back-to-wall and close coupled water closets.

RAK Ceramics flushing systems, allow you to choose using the full flush or the half flush, with different flushing volumes: 6 Liters for the full and 3 Liters for the half flush. The cisterns can also be adjusted to flush with a reduced full flush volume at 4.5 Liters.

For countries with limited water resources, RAK Ceramics has developed innovative water closets perfectly flushing with a reduced 3 Liters Single flush.

By using a lower volume of water to flush the toilet you can dramatically reduce your annual water consumption.

## DESIGN & STYLE

### Innovative and Original Design, 3D Development, Rapid Prototyping

RAK Ceramics product development has created a very wide range of products with carefully finished details and quality design to suit international tastes, incorporating the latest rimless technology.

Carefully designed and engineered with the aid of the latest 3D CAD softwares and prototyped with 5 axis CNC machines, RAK Ceramics Sanitaryware range has the perfect solution for your bathroom, whatever you have imagined.

# WAY TO RECOGNIZE

**Attention!**

Check the **ENGRAVED LOGO** before buying

Respected customers, keeping in view the tastes and preferences of the general public, **RAK Ceramics (Bangladesh) Ltd.** has been marketing various designs of **seat and cover** for a long time. These world class products are highly appreciated by the consumers and all the users due to their superior quality. We are proud to announce that **RAK Ceramics (Bangladesh) Ltd. seat and cover** are being marketed through our authorised dealers.

Respected customers are kindly requested to check the engraving **RAK CERAMICS** and **logo** on the back of each seat and cover before buying the products manufactured by RAK and beware of counterfeit products.

The RAK Ceramics seat and cover is made of ABS plastic, although others are made with PP, see a feature and comparative advantage of both products:

ABS (Acrylonitrile butadiene styrene Thermoplastic)	Polypropylene (PP) Thermoplastic
Long Lasting	Transient
Chemically resistant	Non chemical resistant
Temperature resistant	Non temperature resistant
Shade variation is low	Shade variation is High
The surface is more glossy	The surface is less glossy
Scratch resistant	Non scratch resistant
Does not catch dirt easily	Catch dirt easily

## RAK SANITARY WARE PROTECTED BY ANTI-BACTERIAL GLAZE

The International Organization for Standardization "Middle East Testing Service L.L.C" has given anti-bacterial certificate to RAK Sanitary Ware.

### Why should antibacterial sanitary ware be used?

- In RAK sanitary ware-there is anti-microbial coating technology which protects the bathroom from harmful bacterial, fungus and sunshade
- Easy to clean
- Anti-microbial coating technology makes the ceramics stronger
- Anti-bacterial glaze keeps 24 hour neat and clean to the office, home and hospital

**WE CARE ABOUT  
PRODUCT  
QUALITY  
& SERVICE**

**PRODUCTION & PRODUCT:  
12,000  
SANITARY WARE PIECES  
PRODUCED PER DAY GLOBALLY**

**500  
SANITARY WARE PIECES  
PRODUCED EVERY HOUR GLOBALLY**

RAK Ceramics is internationally recognized for the high quality of its sanitary ceramics. This quality comes from carefully selected premium raw materials that ensure a perfect finish of the products. Better ingredients, better sanitaryware! At RAK Ceramics skilled craftsmen work in harmony with the latest robot technology for the sanitaryware manufacturing. RAK Ceramics product development has created a very wide range of products with carefully finished details and quality design to suit international tastes, incorporating the latest rimless technology.

Carefully designed and engineered with the aid of the latest 3D CAD softwares and prototyped with 5 axis CNC machines, RAK Ceramics & Sanitaryware range has the perfect solution for your bathroom, whatever you have imagined.

#### LATEST RIMLESS TECHNOLOGY

- » HYGIENIC AND EASY CLEANING
- » WATER SAVING
- » EFFICIENT DESIGN
- » SILENT FLUSH
- » NO LEDGES OR RIM

#### QUALITY & PERFORMANCE

Every phase of the RAK Ceramics & Sanitaryware production process counts on strict quality control procedures. The leadership in the GCC region and the strong presence in several other international markets recognize our everyday efforts. Our internal norms comply and exceed the international requirements in terms of quality and performance.

#### OUR PROMISE

We believe that every customer along with stakeholder is important to us. We are also concern about our products, quality and services. Every single error in the value chain of production process, quality assurance and promised service is solved properly.

#### CERTIFICATIONS

RAK Ceramics & Sanitaryware production is accredited with the world's most reputable certification entities; with national and international certifications for product and processes, RAK Ceramics not only complies to the requirements, but often exceeds the most stringent international standards. Our own water/air severe product testing is performed on the 100% of wc & urinal production. Only complying products are labeled with our new QC sticker, a seal of quality and performance.

#### OUR DEDICATED HOTLINE:

We would like to inform you that RAK Ceramics is very much dedicated to provide services with highly efficient plumbers and technicians. Our RAK Ceramics service team provide exclusive services regarding installation and maintenance within 72 hours and we have a customer care line **16630** which can record feedback, suggestion, complaints etc. from 10 am to 8 pm.

## CERAMIC CLICK – CLACK

### CERAMIC TOP SLOTTED BASIN WASTE

Push button wastes are a contemporary choice. These are operated by a central button that you simply push down to allow your vessel to fill up, and then you push again when you are ready to drain the water away. This is quite popular with the modern minimalistic bathrooms being easy and simple to use.

Our Ceramic Top Slotted Basin Waste is the perfect choice for any modern bathroom setting. This unique waste is white/ivory in colour and is made from the highest quality ceramic to perfectly coordinate with your new ceramic basin. This ceramic option offers a simple, sophisticated look and blends beautifully with any white basin. A white basin waste won't highlight water marks, so is much easier to keep clean and would be best suited to any busy bathroom environments.

Clack Pop-Up waste fitting with overflow hole.  
Material (Body): Chrome plated Brass  
Material (Head): Vitreous china ceramic.  
Connection: G 1 1/4"

◆ AVAILABLE FOR ◆  
COUNTER TOP BASIN AND OVAL SHAPE BASIN

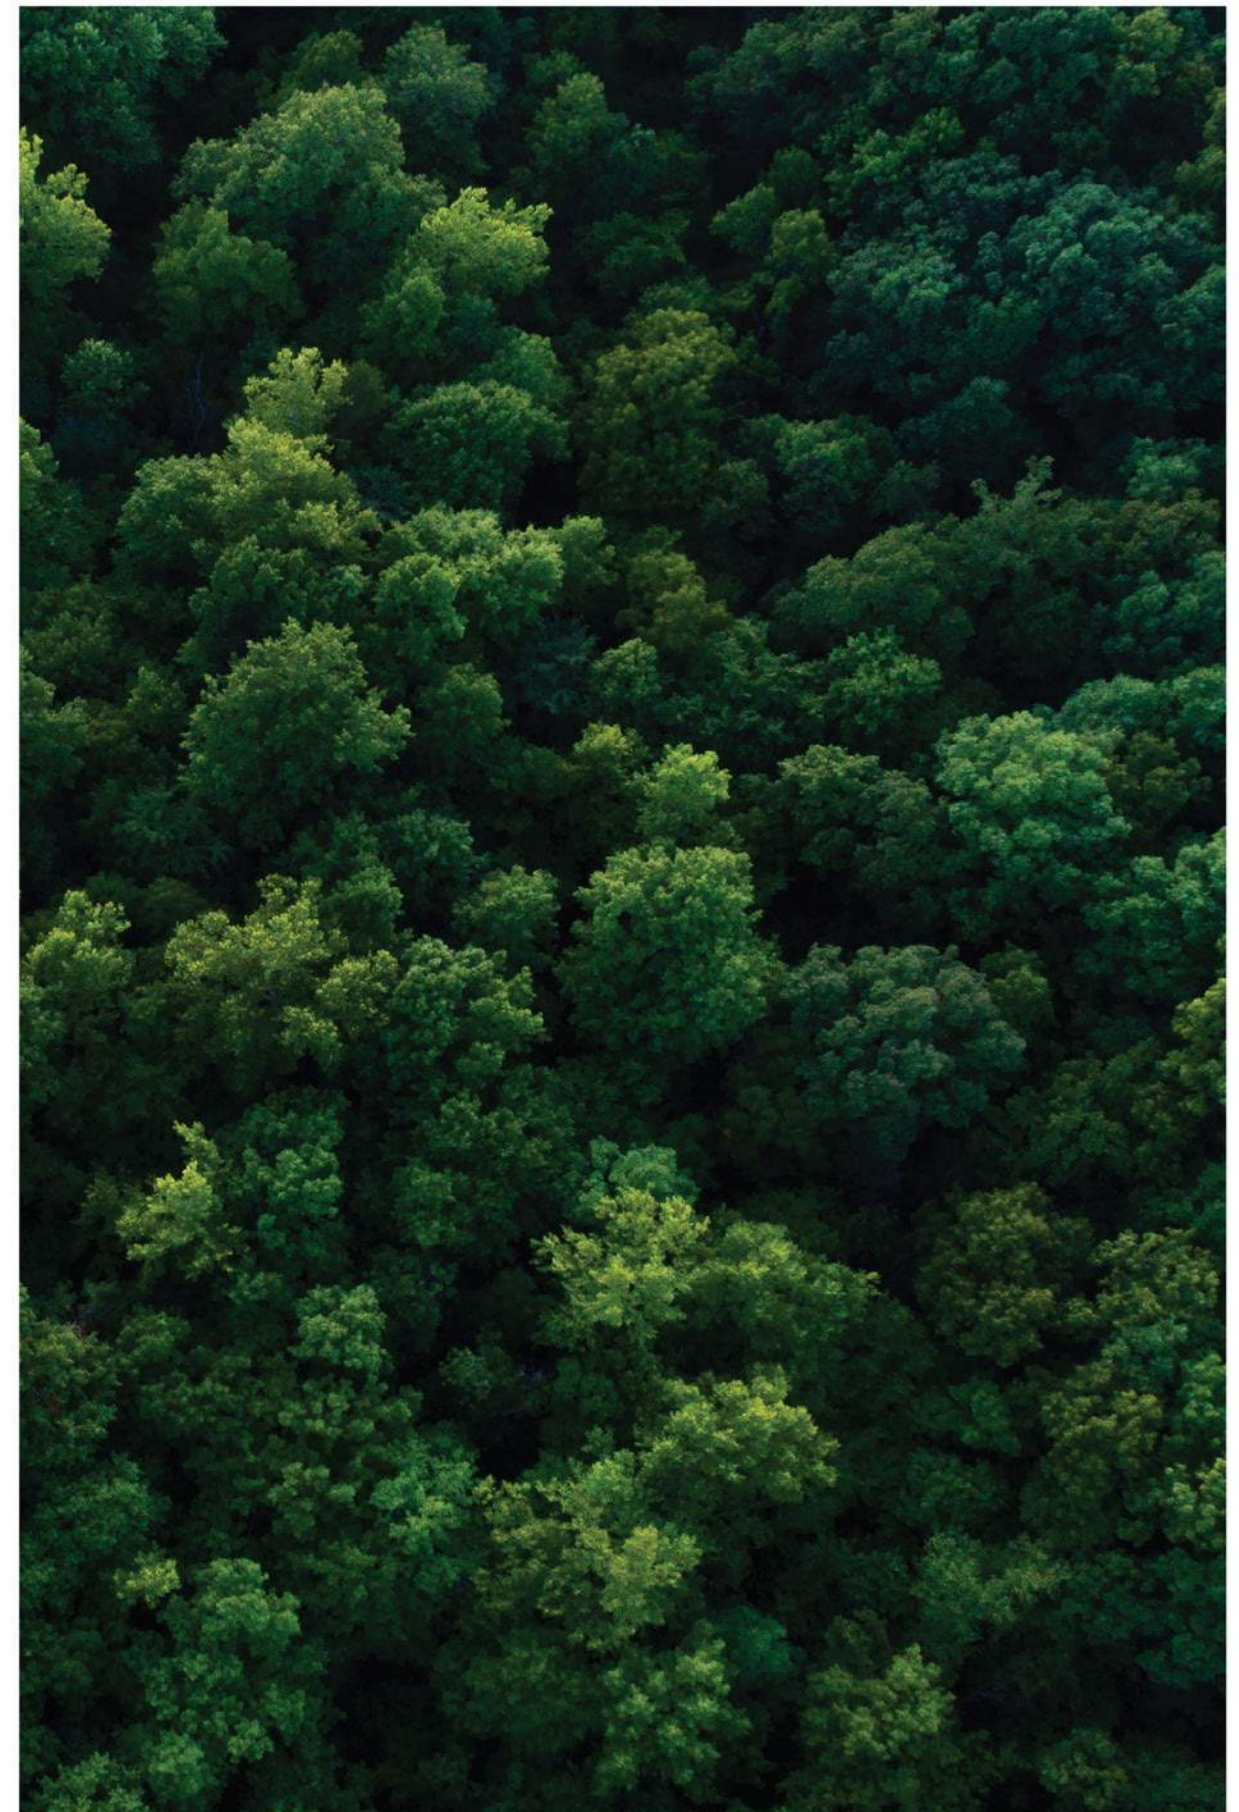

## **We play our role for a better environment and society**

Sustainability in every sphere of business is one of the main elements of RAK Ceramics mission statement. The company is committed to practicing environmental stewardship throughout its manufacturing chain - from product design and efficient operations processes – and to playing an active role in building a better community by enhancing the surrounding environment. Organization’s activities improve energy efficiency, reduce pollution, enhance biodiversity and improve the quality of life for both people in the communities it operates in and for its workforce. It recycles natural raw materials to help conserve natural resources and adopts clean development mechanism (cdm) projects to reduce carbon emissions during the manufacturing process.

RAK Ceramics is the first ceramics manufacturing company in its region to produce a global reporting initiative (GRI) sustainability and corporate social responsibility (CSR) report, based on the latest GRI-g4 guidelines. RAK Ceramics is a founding member of Emirates Green Building Council, which supports the development of sustainable buildings in the UAE.

# EVOLUTION

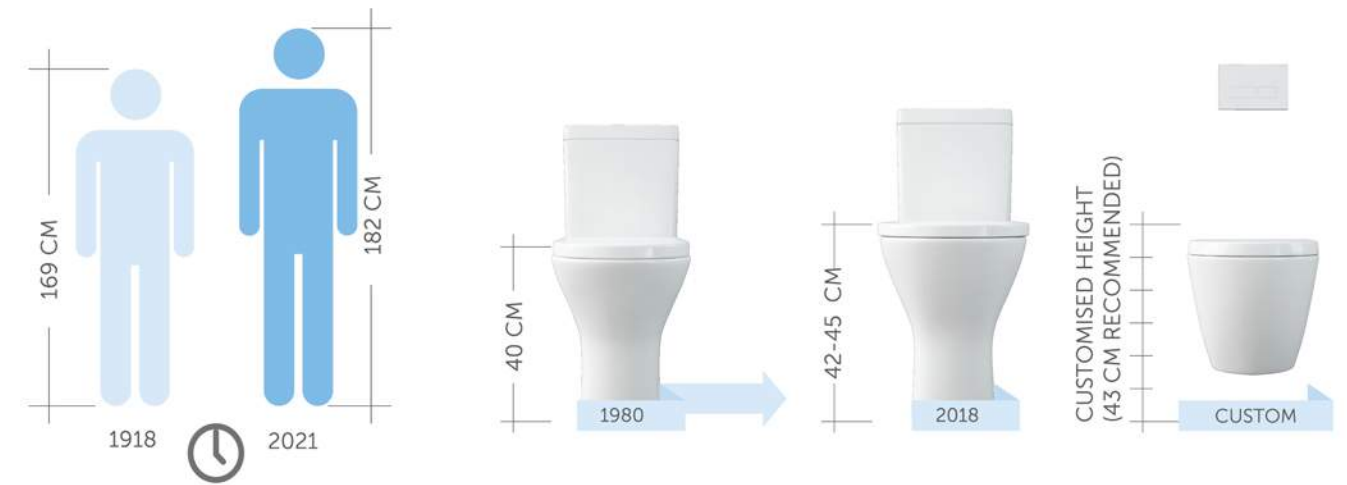

## Comfort height, updated ergonomics

Over the last 100 years, the average height of people in industrialized nations has increased approximately by 10 cm.

To be innovative in design also means meeting the changes in population and their new needs in terms of ergonomics and comfort.

RAK Ceramics design evolves together with human evolution.

### NEW STANDARD HEIGHTS

# PRODUCTION & QUALITY

## Raw Materials, Glaze, Latest Technology and Manufacture

RAK Ceramics is internationally recognized for the high quality of its sanitary ceramics. This quality comes from carefully selected premium rawmaterials that ensure a perfect finish of the products.

Better ingredients, better sanitaryware!

12,000  
sanitaryware pieces produced per  
day globally

500 PER HOUR  
sanitaryware produced every hour  
globally

At RAK Ceramics skilled craftsmen work in harmony with the latest robot technology for the sanitaryware manufacturing.

# PRODUCTION & QUALITY

## Quality, Procedures, Organization and Norms

every phase of the RAK Ceramics sanitaryware production process counts on strict quality control procedures. The leadership in the GCC Region and the strong presence in several other international markets reflect our everyday efforts.

Our internal Norms comply and exceed the international requirements in terms of quality and performance.
