## Focused on ceramics' expertise

RAK Ceramics is one of the largest ceramics' brands in the world. Specialising in ceramic and gres porcelain wall and floor tiles and sanitaryware, the company has the capacity to produce 123 million square metres of tiles and 5 million pieces of sanitaryware per year at its state-of-the-art plants across the United Arab Emirates, India and Bangladesh.

Founded in 1989 and headquartered in the United Arab Emirates, RAK Ceramics serves clients in more than 150 countries through network of operational hubs its in Europe, Middle East and North Africa, Asia, North and South America and Australia. Across global operations the company employes approximately 12,000 staff from more than 40 nationalities. RAK Ceramics is a publicly listed company on the Abu Dhabi Securities Exchange in the United Arab Emirates and as a group has an annual turnover of approximately US\$1 billion.

RAK Ceramics was established in Ras Al Khaimah in 1989 by H.H. Sheikh Saud Bin Saqr Al Qasimi, member of the Supreme Council and Ruler of Ras Al Khaimah, who aspired to have the best machinery, latest technology, and to produce the best products possible for sale in the world.

has context menu

## Forged in the mountains of Ras Al Khaimah

RAK Ceramics was established in Ras Al Khaimah (UAE) in 1989 by H.H. Sheikh Saud Bin Saqr Al Qasimi, member of the Supreme Council and Ruler of Ras Al Khaimah, who aspired to have the best machinery, latest technology, and to produce the best products possible for sale in the world.

## Latest technology and manufacture

RAK Ceramics is internationally recognized for the high quality of its sanitary ceramics. This quality comes from carefully selected premium raw materials that ensure a perfect finish of the products. Better ingredients, better sanitaryware!

At RAK Ceramics we are not just ceramic experts. We also manufacture seat covers, bathtubs, showertrays, furniture mirrors and accessories.

## Quality makes us different

RAK Ceramics was the first company in United Arab Emirates being awarded with **ISO 9001 certification** by internationally recognized UK certification body “CICS” (Ceramic Research Institute Certification Scheme) for ceramics tiles and sanitary wares. Bureau Veritas Certifications verified the implementation of RAK Ceramics’ quality management system and certified the company in compliance with the requirements of **ISO 9001:2015** with the scope covering the design, development, production and supply of ceramics and porcelain floor and wall tiles, slabs and vitreous china sanitary wares.

Bureau Veritas Certifications also certified RAK Ceramics for **ISO 14001:2015 Environmental Management System**.

Every phase of the RAK Ceramics sanitaryware production process counts on strict quality control procedures. The leadership in the GCC Region and the strong presence in several other international markets reflect our everyday efforts. Our internal Norms comply and exceed the international requirements in terms of quality and performance.

Its Testing Laboratory is operating in accordance to **ISO/IEC 17025** accredited by NATA (National Association of Testing Authorities, Australia).

## Global approvals & standards

RAK Ceramics Sanitaryware production is accredited with the world's most reputable certification entities. With national and international certifications for product and processes, RAK Ceramics not only complies to the requirements, but often exceeds the most stringent international standards. Our own severe water/air product testing is performed on the 100% of WC & Bidet production. Only complying products are labeled with our QC sticker: a seal of quality and performance!

## We play our role for a better environment and society

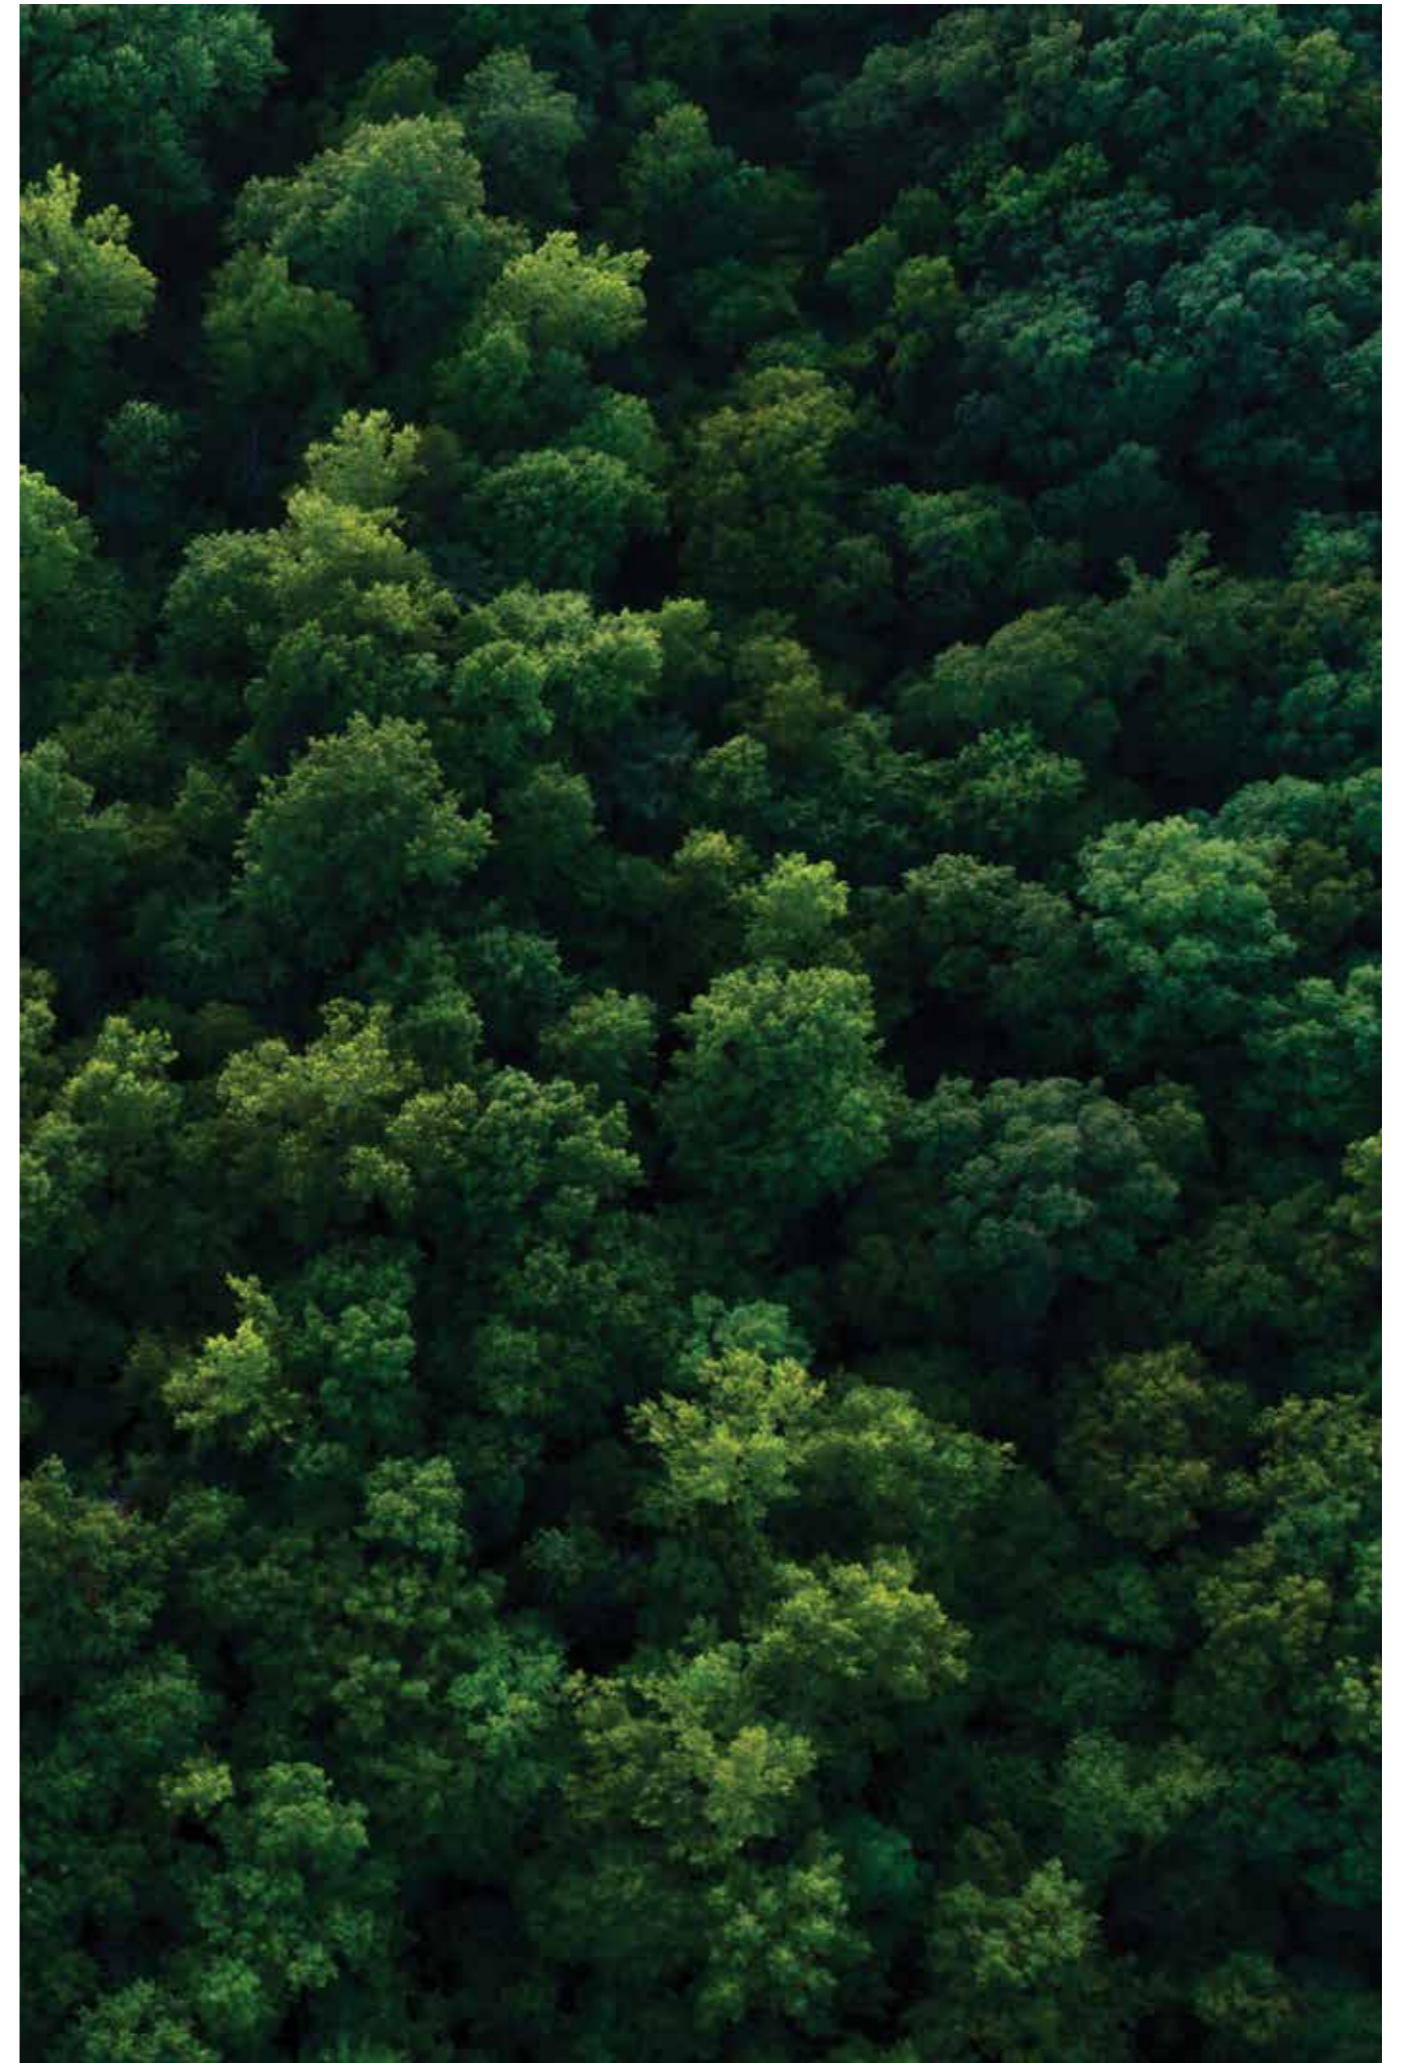

Sustainability in every sphere of business is one of the main elements of RAK Ceramics mission statement. The company is committed to practicing environmental stewardship throughout its manufacturing chain – from product design and efficient operations processes – and to playing an active role in building a better community by enhancing the surrounding environment. Organization’s activities improve energy efficiency, reduce pollution, enhance biodiversity and improve the quality of life for both people in the communities it operates in and for its workforce. It recycles natural raw materials to help conserve natural resources and adopts clean development mechanism (cdm) projects to reduce carbon emissions during the manufacturing process.

RAK Ceramics is the first ceramics manufacturing company in its region to produce a global reporting initiative (GRI) sustainability and corporate social responsibility (CSR) report, based on the latest GRI-g4 guidelines. RAK Ceramics is a founding member of Emirates Green Building Council, which supports the development of sustainable buildings in the UAE.

### **FROM RESPONSIBLE SOURCES FSC® CERTIFIED**

The RAK-JOY wooden furniture collection respects the environment and the life of the furniture itself. All particleboard and MDF used in the construction of this striking furniture collection comes from responsible sources FSC certified, respecting the forests, the people and wildlife who call them home.

CERAMICS

## Quality design for international tastes

RAK Ceramics product development has created a very wide range of products with carefully finished details and quality design to suit international tastes, incorporating the latest rimless technology.

Carefully designed and engineered with the aid of the latest 3D CAD softwares and prototyped with 5 axis CNC machines, RAK Ceramics Sanitaryware range has the perfect solution for your bathroom, whatever you have imagined.

## Rimless technology

RAK Ceramics delivers the ultimate in technology for bathroom suites. Based on similar design specifications to sanitaryware in hospitals and medical centres, RAK Ceramics Rimless water closets allows you to experience the same high standards of hygiene in your own home.

RAK Ceramics continues to set new standards of hygiene and water efficiency in the sanitaryware industry, with uniquely engineered water flushing systems that effectively remove waste, helping to keep bathrooms fresh and hygienic.

### WATER SAVING

Using just 4 litres for the full flush and 2.5 litres for the half flush, water usage is reduced by a third.

### HYGIENIC AND EASY TO CLEAN

The water closets have no rims to harbour germs, making cleaning quick, easy and more hygienic.

### SILENT FLUSH

Rimless technology allows a faster and more silent flush.

### EFFICIENT DESIGN

Design and efficiency can be successfully combined. Water flows vertically and horizontally, before flushing the entire inner surface of the bowl, without splashing.

Water Saving

Easy Cleaning

Silent

Hygienic

No ledges or rim

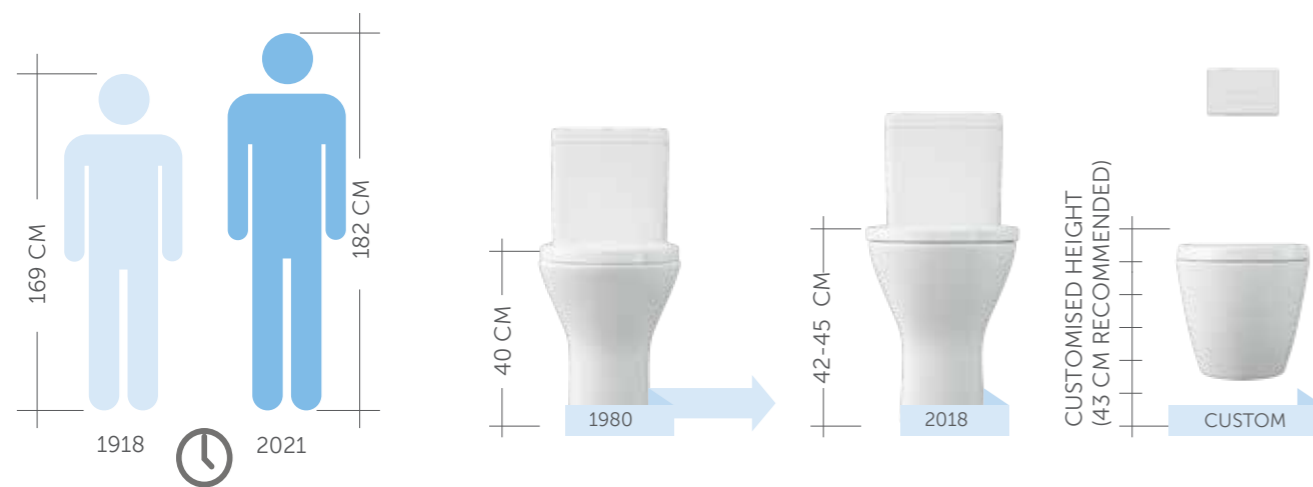

Rimless

## Updated ergonomics

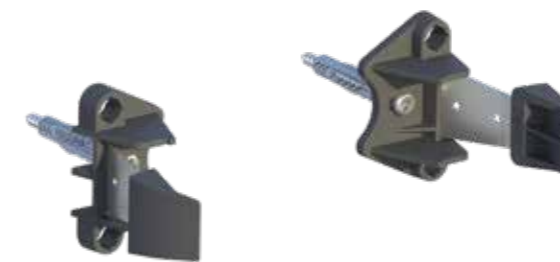

Over the last 100 years, the average height of people in industrialized nations has increased approximately by 10 cm. To be innovative in design also means meeting the changes in population and their new needs in terms of ergonomics and comfort. RAK Ceramics design evolves together with human evolution.

## Hidden fixation systems

Our wall hung and back to wall products are benefitting from the collaboration with Fischer Group, one of the industry leaders. The use of the most innovative Fischer fixing systems, is allowing us design freedom on the ceramic, better aesthetics and more safety for the installer.

The Hidden Fixation System is comfortable and time saving, in fact one-man installation is made possible by the clip system that keeps the ceramic held up during the installation.

## RAK-Sanit A new standard for hygiene

RAK-Sanit solutions for your bathroom are produced with RAK-ProTeK, the innovative ceramic glaze developed to protect wash basins, toilets and urinals, to make them more hygienic and easier to clean. RAK-ProTeK, which is baked into the ceramic during firing, results to a smoother surface, unlike standard ceramic with irregular surface.

This feature allows the particulates accumulating on the ceramic to easily slip away making cleaning more efficient and convenient.

The silver ions contained in this revolutionary glaze, kill 99.9% of bacteria in 24 hours and prevent the bacterial growth, in comparison to conventional ceramic glazing. RAK-ProTeK glaze has been tested by Artest laboratory from the Italian Ceramic district in Modena.

For more information, please scan the QR code below to view our RAK-Sanit dedicated brochure.

## Creative Collaborations

Collaboration is the essence of Creation. RAK Ceramics works with renowned designers to create innovative bathroom products that will inspire and enhance your imagination. Aimed to address the evolving design demand of the market, these collaborations bring forth creative ideas and latest trends in the industry resulting in an aesthetic and functional bathroom collection. RAK Ceramics brings the designer's idea to life by creating high quality products which gives the customers the freedom to imagine.

Starting from the left side:  
**Patrick Norguet, Giuseppe Maurizio Scutellà,  
Daniel Debiasi and Federico Sandri**

# RAK-VALET

Patrick Norguet creates a surprising new bathroom project for RAK Ceramics: RAK-Valet.

A set of visions, designs, exclusive shapes and fast rhythms that lead to unexpected solutions, a hallmark of Norguet's approach to each of his new creations. RAK-Valet represents all the creative genius of the French designer, combined with the reputation of Rak Ceramics for manufacturing quality and project completion. The collection consists of functional elements, that fully service the bathroom experience: a space that is increasingly the protagonist of every interior design project, residential or contract, a key environment for the harmony and character of each creation, classic or contemporary, but always unique.

## Design by Patrick Norguet

Patrick Norguet is an essential figure on the international design scene.

After completing his design studies at the ESDI, Patrick Norguet was commissioned to design the display windows of two major players in the luxury industry: Yves Saint-Laurent and Louis Vuitton. From these experiences, he gained an understanding of brand identity and the way of showcasing it. Designing Renault's event stands helped him to hone and apply his synthesis skills to ephemeral architectures.

In 2000, his Rainbow Chair, noticed and produced by Giulio Cappellini, gave him visibility that quickly spread thanks to the international media. He then opened his studio in Paris. His early furniture collections for Bernhardt, Artifort, Offect, Capdell or the French companies Alki and Tolix validated and established his presence at international shows. In 2010, designing one McDonald's restaurant in France gradually led to a collaboration with McDonald's Global. Patrick Norguet has become an emblematic figure of French design.

Alias, Arflex, Artemide, Cassina, Emu, Ethimo, Glass Italia, Kristalia, Lea Ceramica, Pedrali, de Padova, and Tacchini quickly recognized his talent and authority and fully involved him in the production process and strives to create long-lasting collections. Drawing inspiration from everything that surrounds him, Patrick Norguet does not follow trends but seeks to give shape to products whose relevance and modernity would withstand the test of time: "A well-designed object, an object created through generous collaboration is timeless."

*P. Norguet.*

# INSIDE OUT

Bringing domestic life into the open (and viceversa)

A special project, the result of a very simple concept, but just as strong as to give character to the house in every detail: dialogue. Dialogue between inside and outside, between light and shadow, dialogue between volumes, dialogue between lines, dialogue between elements, shapes and materials. From the dialogue comes a new way of living and enjoying the domestic space, which becomes a space free from patterns, permeable, osmotic, innovative.

In every internal environment, the outside is present and alive and tells the evolution of the day and the surrounding scenery. Inside, the delicate balance is never disturbed and each element is functional to the person in this constant and harmonious exchange. Everything depends on who lives in the space, and it being the center of this dialogue - a witness to something magical and delicate

THE DELICATE BALANCE OF LIGHT, SHADOW, SHAPE AND MATERIALS

A CONSTANT AND HARMONIOUS EXCHANGE, AT THE SERVICE OF THE PERSON

# RAK-CLOUD

DESIGNER  
COLLECTIONS

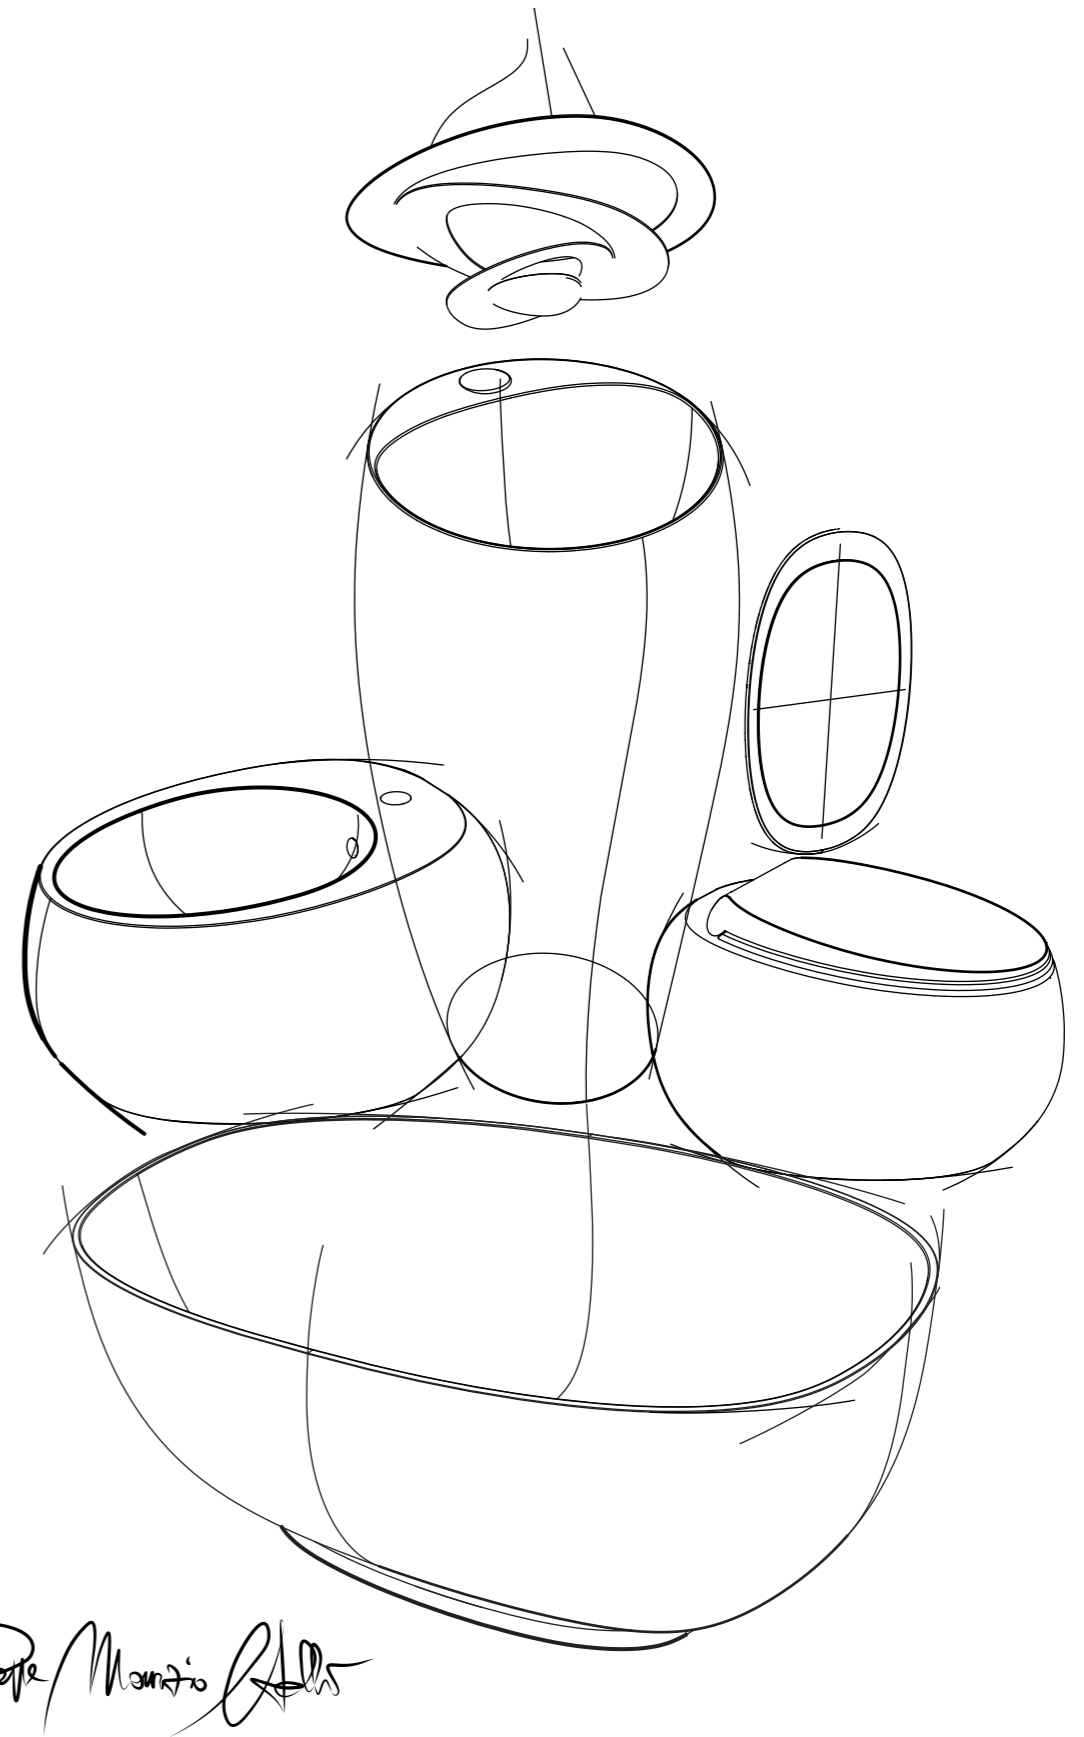

Fluid lines inspired by geometric swirls combined with changing shapes like clouds lend themselves to multiple interpretations and play with light, producing a soft enveloping effect, culminating in a sophisticated but at the same time functional and welcoming bathroom. **RAK-Cloud** is available in Back to wall, or wall-hung sanitaryware, elegant freestanding bathtubs and washbasins.

## Design by Giuseppe Maurizio Scutellà

Giuseppe Maurizio Scutellà was born in Alcamo, Sicily. His collaboration with RAK Ceramics begins with RAK-Cloud (2018), a project that continues the creative thinking of the Italian designer and that integrates perfectly with his other projects such as the collection of lamps "Pirce" by Artemide (Good\_Design 2008, Red Dot Award 2009, IF Design Award 2010) and the "Metropolis" collection of crystal and ceramic tables by Tonelli Design.

"I like to talk with the soul of all my projects, discover its history and capturing the most hidden hues of its character, respecting its nature and embracing its languages. It is my way of approaching its magical essence and becoming its interpreter".

# RAKSOLID: DESIGN AND FUNCTIONALITY

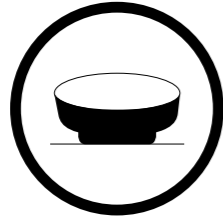

## راكسوليد: التصميم والتطبيقات

RAK-Cloud bathtubs are made of RAKSOLID, a durable material composed of a mixture of natural minerals and resins. The elegant matte white finish gives a distinctive feel to the bathing area, as well as a pleasant to the touch and more anti-slip safety.

راك-كلاود، لأحواض الاستحمام مصنوعة من مادة متينة تتكون من خليط من المعادن الطبيعية والراتنجات. يمنحك اللون الأبيض اللامع الأنيق مظهراً مميزاً لمنطقة الاستحمام، بالإضافة إلى الشعور باللمس اللطيف والمزيد من شروط السلامة المقاومة للانزلاق..

# RAK-VARIANT

DESIGNER  
COLLECTIONS

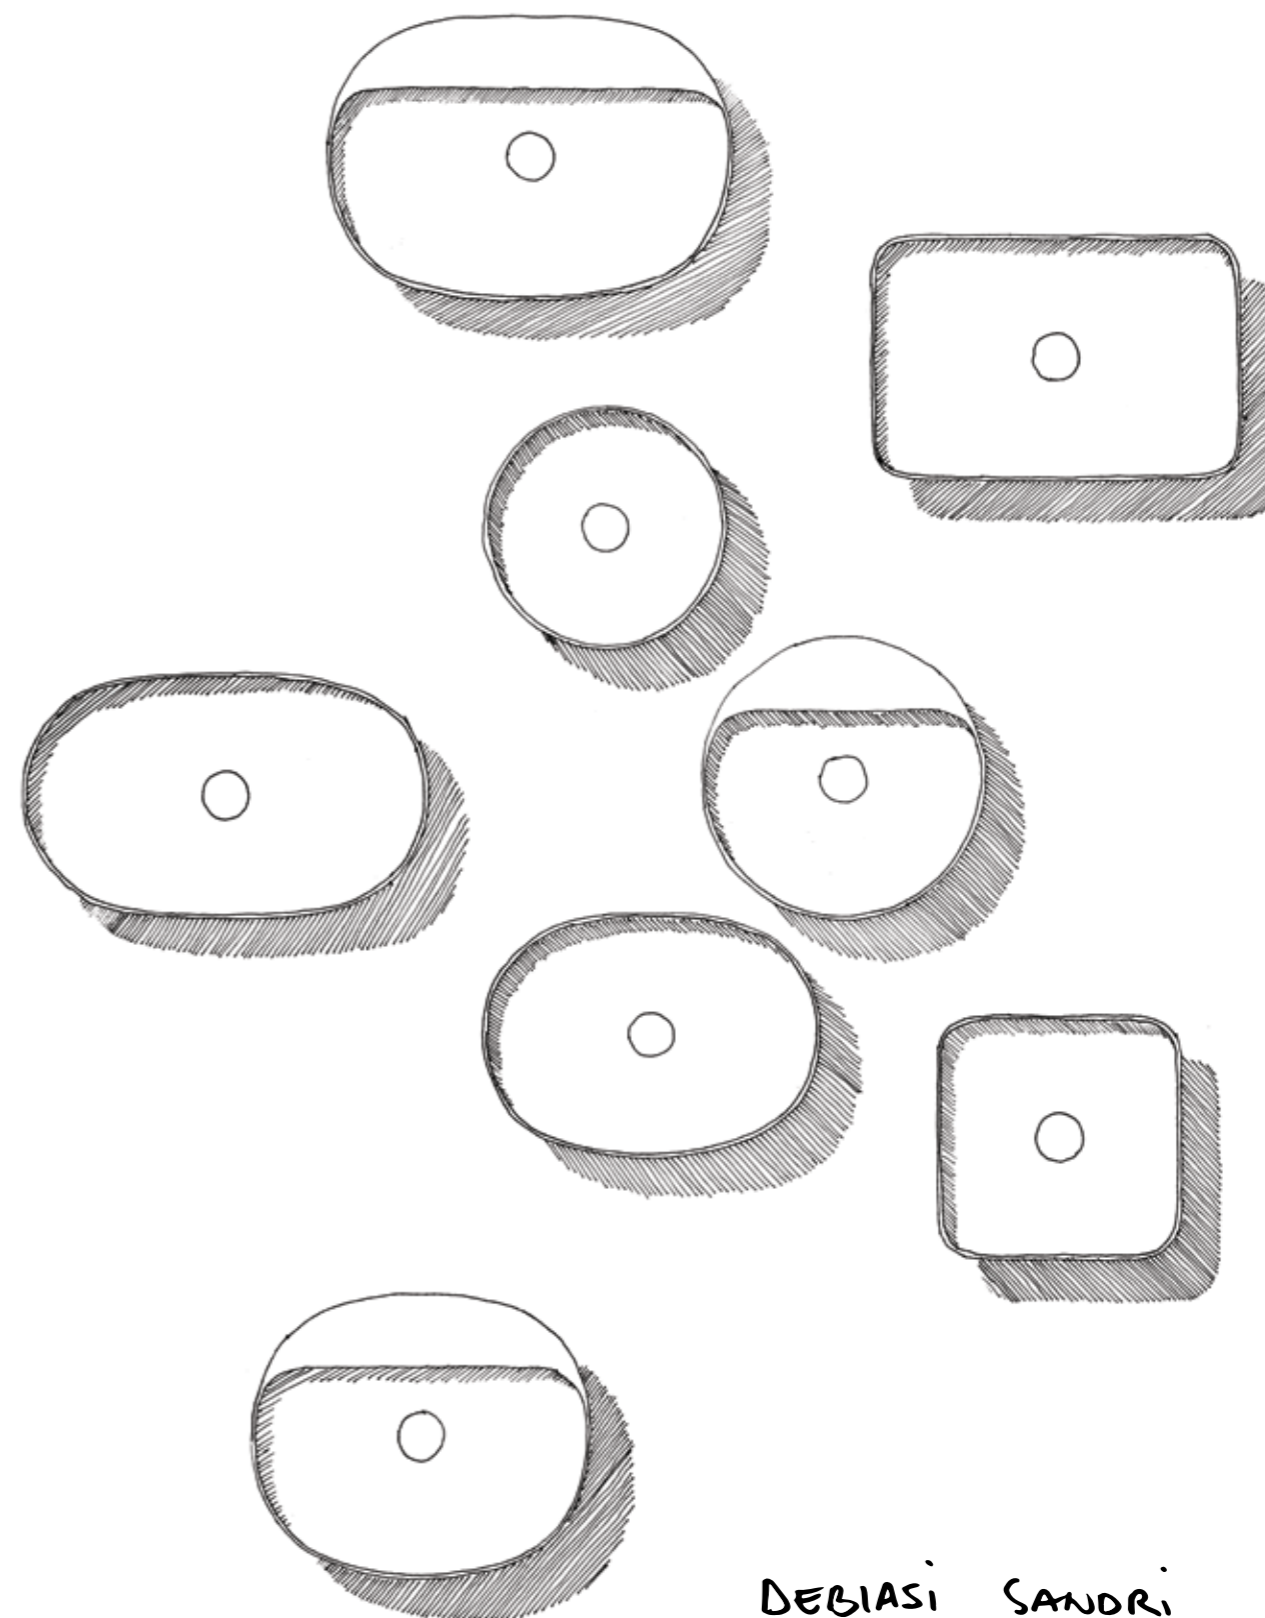

Round, oval, square... what's the shape of your freedom? Feel free to design, free to explore new solutions for your bathroom project, free to imagine. RAK-Variant featuring countertop, drop-in and under counter washbasins. Different shapes and different sizes with or without tap bank. Made from high-quality ceramic in 5mm thickness.

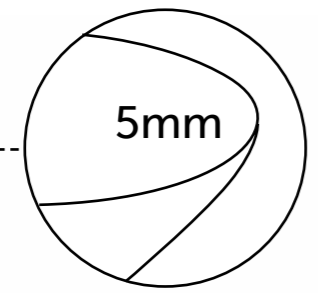

## Design by Daniel Debiasi and Federico Sandri

Daniel Debiasi and Federico Sandri founded their own design studio in 2010 and work within various fields of design, ranging from objects to spaces. Multiple experiments and the relationship between manufacture and craftsmanship form the basis for a much broader thinking, where objects are always considered as part of a bigger picture. They have created work for Antoni Lupi, Lema, Ligne Roset, Normann Copenhagen, Offecct, Rosenthal, Stelton, Villeroy & Boch among others. Many of their projects have received international design awards and are featured in publications worldwide. In addition to their work as designers, they regularly teach, hold workshops and lectures at various institutions including IUAV Venezia and Politecnico di Milano. Together with Rak Ceramics, Daniel Debiasi and Federico Sandri present the project RAK-Variant (2019).

DEBIASI SANDRI

SLIM EDGES, HIGH RESISTANCE

36X36 CM  
VARDI13600AWHA

## COUNTERTOP WASHBASIN

The washbasin shape, the ceramic material and the beautiful design are enhanced by this countertop solution. The basin becomes the central focus and therefore plays a fundamental role in the final design of the interior project. The thin edges help to enhance any vanity top, cabinet or console.

The wide range of shapes, in the double version with or without tap bank, makes RAK-Variant countertop washbasins ideal for freely expressing your ideas.

## DROP-IN WASHBASIN

RAK-Variant drop-in solutions are an excellent compromise between functionality and aesthetics. The ceramic washbasin, in your preferred form, can in fact be combined and integrated with any countertop in gres porcelain, creating harmonious results in any environment. At the same time, this solution saves a lot of space compared to undercounter solutions, allowing storage space.

55X42 CM  
VARDI55501AWHA

## UNDERCOUNTER WASHBASIN

The undercounter variant, with the sink fully installed below the vanity top, is of course the one in which the sink goes most unnoticed.

It becomes a fully functional tool for the environment around it, with only the internal shape remaining visible. An elegant solution that enhances the choice of materials selected by the designer for the bathroom project.

# RAK-PETIT

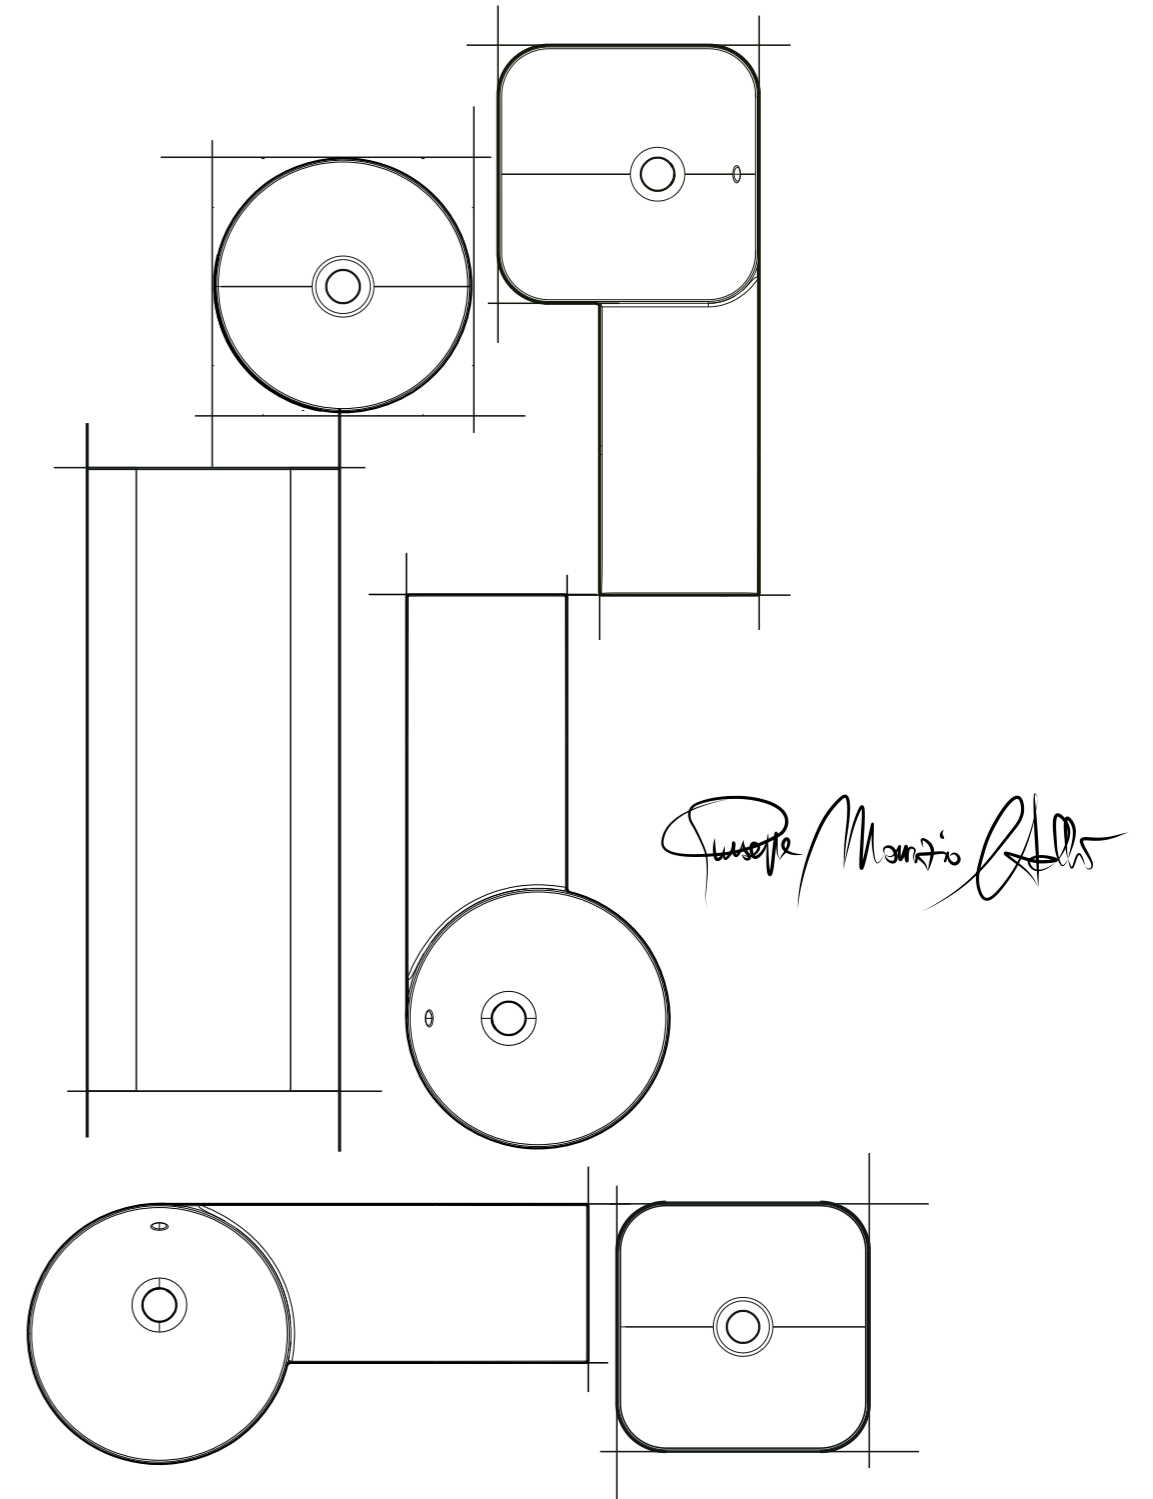

RAK-Petit is the second chapter of the successful collaboration with Maurizio Scutellà. A transversal collection of small washbasins designed for architects and interior designers who address the theme of small spaces: with minimal shapes and small dimensions, RAK-Petit is perfect for small but special bathrooms and for furnishing elegant public spaces, freestanding washbasins for representative or public bathrooms.

## Design by Giuseppe Maurizio Scutellà

Giuseppe Maurizio Scutellà was born in Alcamo, Sicily. His collaboration with RAK Ceramics begins with RAK-Cloud (2018), a project that continues the creative thinking of the Italian designer and that integrates perfectly with his other projects such as the collection of lamps “Pirce” by Artemide (Good\_Design 2008, Red Dot Award 2009, IF Design Award 2010) and the “Metropolis” collection of crystal and ceramic tables by Tonelli Design. RAK-Petit is the second concept developed together with RAK Ceramics (2019).

“I like to talk with the soul of all my projects, discover its history and capturing the most hidden hues of its character, respecting its nature and embracing its languages. It is my way of approaching its magical essence and becoming its interpreter”.

# RAK-DES

RAK-Des is a new concept bathroom suite that pays tribute to the Bauhaus school by which it is inspired, on the occasion of the centenary of its foundation (1919). RAK-Des includes bowls and freestanding washbasins with the essential minimalist lines. The rectangular washbasins of this collection can be installed suspended, individually, or combined with the RAK-Joy vanities.

## Touchless flushing

Enjoy the same hands-free, germ-free experience of commercial restrooms. With the new RAK Ceramics Touchless Flushing System, this same ease of use and minimal spreading of germs has finally expanded to home use toilets. A sensor module placed underneath the toilet's cistern lid runs on four AA batteries. It utilizes emerging sensing technology, which projects an electromagnetic field that is both extremely accurate and reliable.

This type of sensor detects the user in the projected field and initiates the dual flush: 6 liters keeping the hand above the spot, or 3 liters waving the hand.

### DUAL FLUSHING:

Still hand above the indicated spot for *full flush*.

Waving hand above the indicated spot for *half flush*.

### Technical Information:

Sensor area is within 40mm~60mm from the surface of the cistern lid; effective diameter of the sensor area is within 100mm.

Battery life: around 2 years for family use, and 1 year for commercial using.

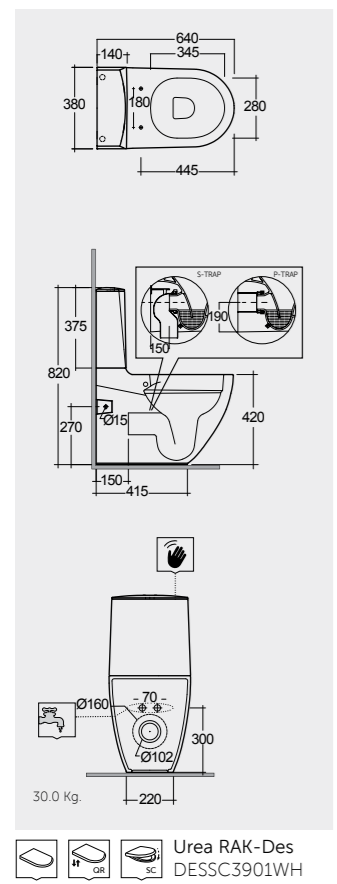

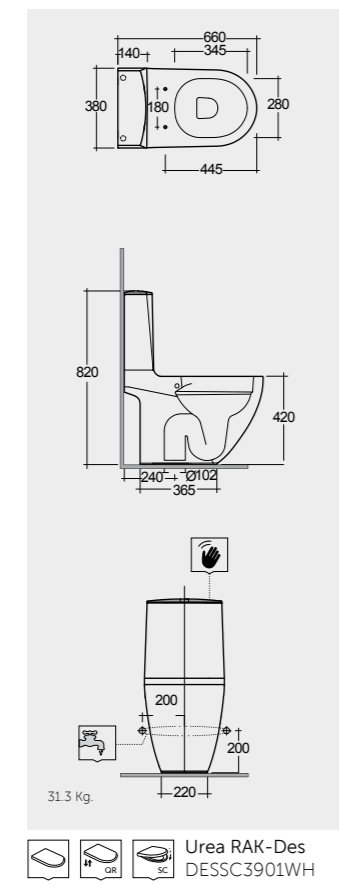

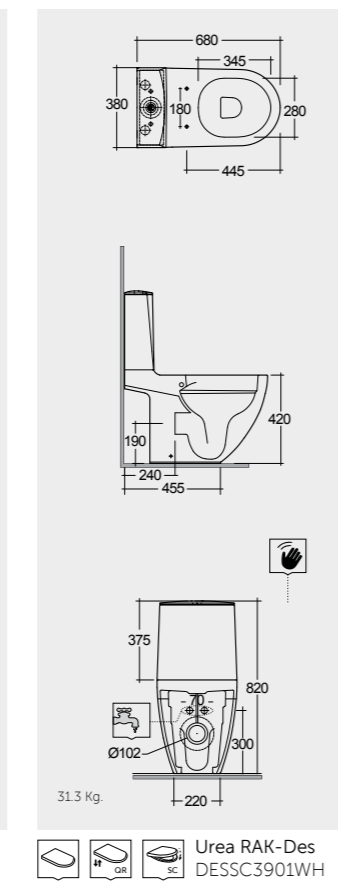

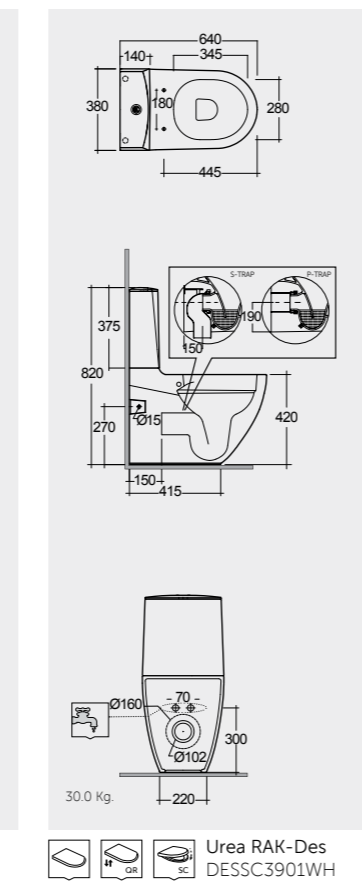

Override lateral push button in case of failed battery.

# RAK-ILLUSION

Amazement is a great sensation of wonder, brought by something unexpected. This is exactly the base of RAK-Illusions' design. Lines so light it creates an impression of suspension. Its surprising details and unique character can make the bathroom a magical and unexpected place. RAK-Illusions is available in Back to wall, or wall-hung sanitaryware, elegant freestanding and washbasins.

## We play our role for a better environment and society

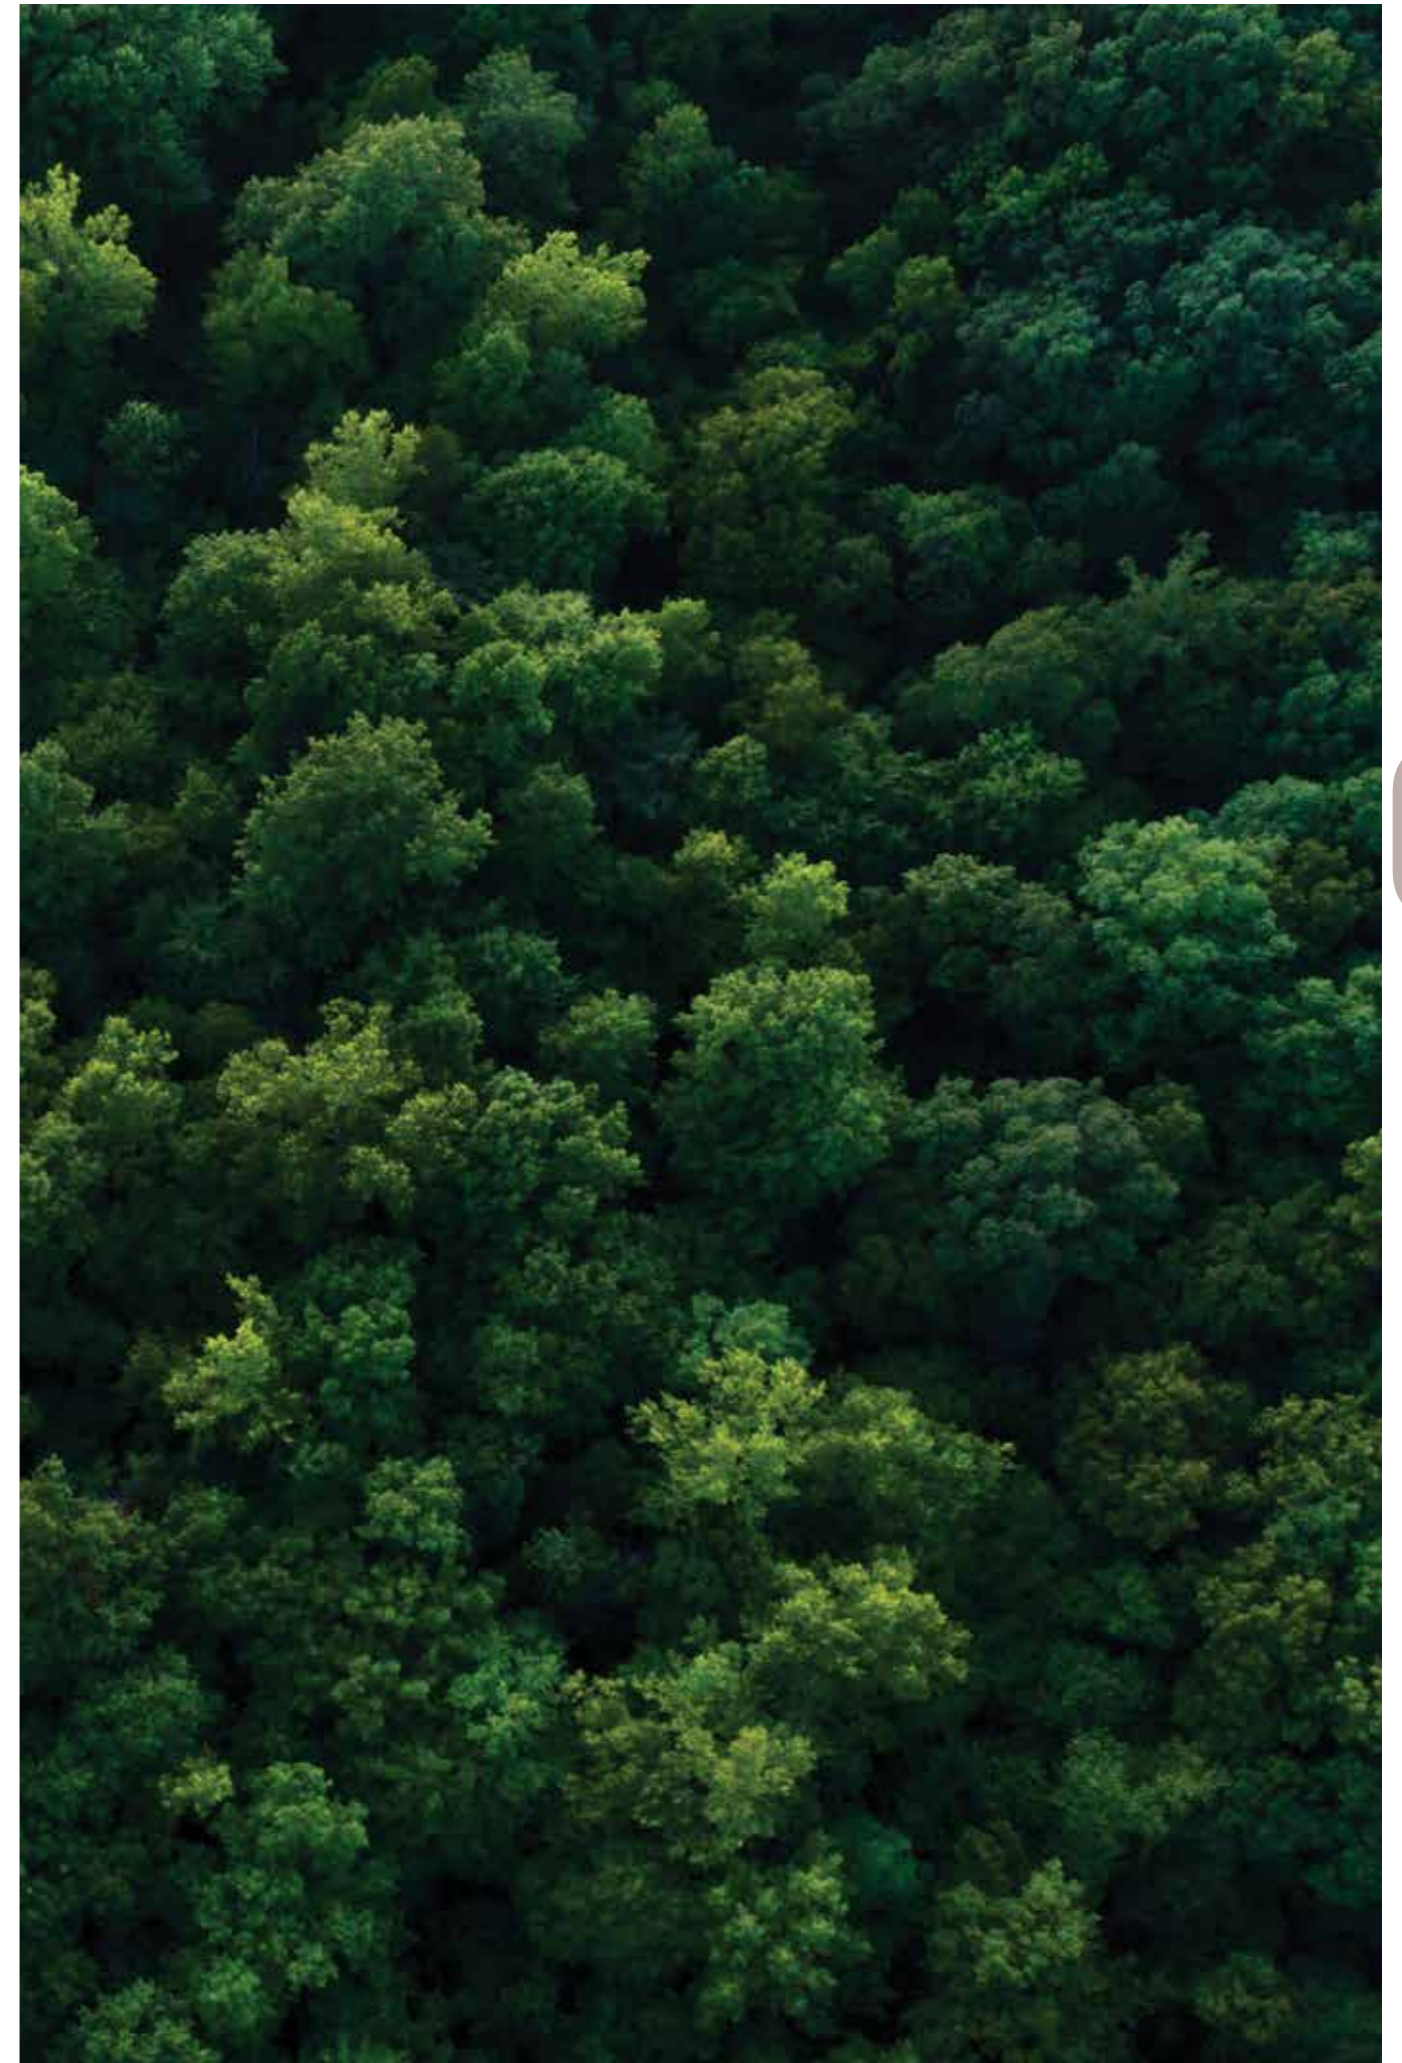

Sustainability in every sphere of business is one of the main elements of RAK Ceramics mission statement. The company is committed to practicing environmental stewardship throughout its manufacturing chain – from product design and efficient operations processes – and to playing an active role in building a better community by enhancing the surrounding environment. Organization’s activities improve energy efficiency, reduce pollution, enhance biodiversity and improve the quality of life for both people in the communities it operates in and for its workforce. It recycles natural raw materials to help conserve natural resources and adopts clean development mechanism (cdm) projects to reduce carbon emissions during the manufacturing process.

RAK Ceramics is the first ceramics manufacturing company in its region to produce a global reporting initiative (GRI) sustainability and corporate social responsibility (CSR) report, based on the latest GRI-g4 guidelines. RAK Ceramics is a founding member of Emirates Green Building Council, which supports the development of sustainable buildings in the UAE.

### FROM RESPONSIBLE SOURCES FSC® CERTIFIED

The RAK-JOY wooden furniture collection respects the environment and the life of the furniture itself. All particleboard and MDF used in the construction of this striking furniture collection comes from responsible sources FSC certified, respecting the forests, the people and wildlife who call them home.

# High-quality furniture products you can trust

We strive to provide the best premium bathroom products that you can trust and count on. To do so, we ensure our products meet the most rigorous tests based on international quality regulations.

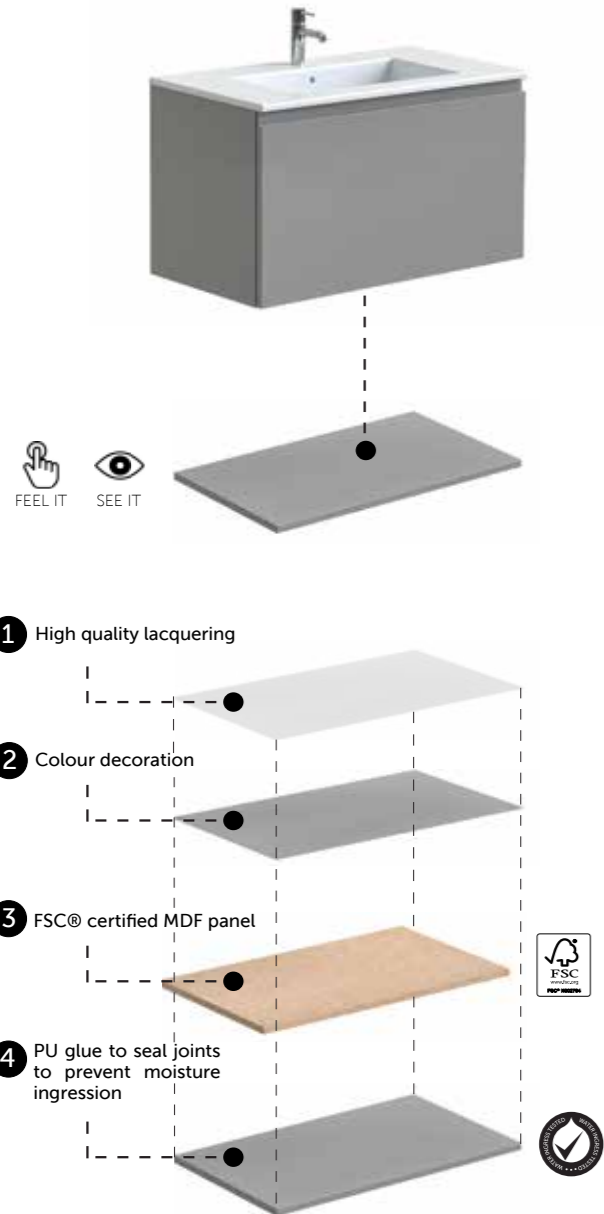

Within our furniture and mirror range, all external wooden panels including doors and drawers are subjected to 10 cycles over 5 days to water ingress tests and pass against no swelling or degradation of the panels. Our furniture products featuring drawer runners and hinges are also covered by lifetime warranty. In line with sustainable manufacturing practices, all wooden products are made of material from responsible sources FSC® certified.

We know that value starts with quality and you can trust our products will stand the test of time.

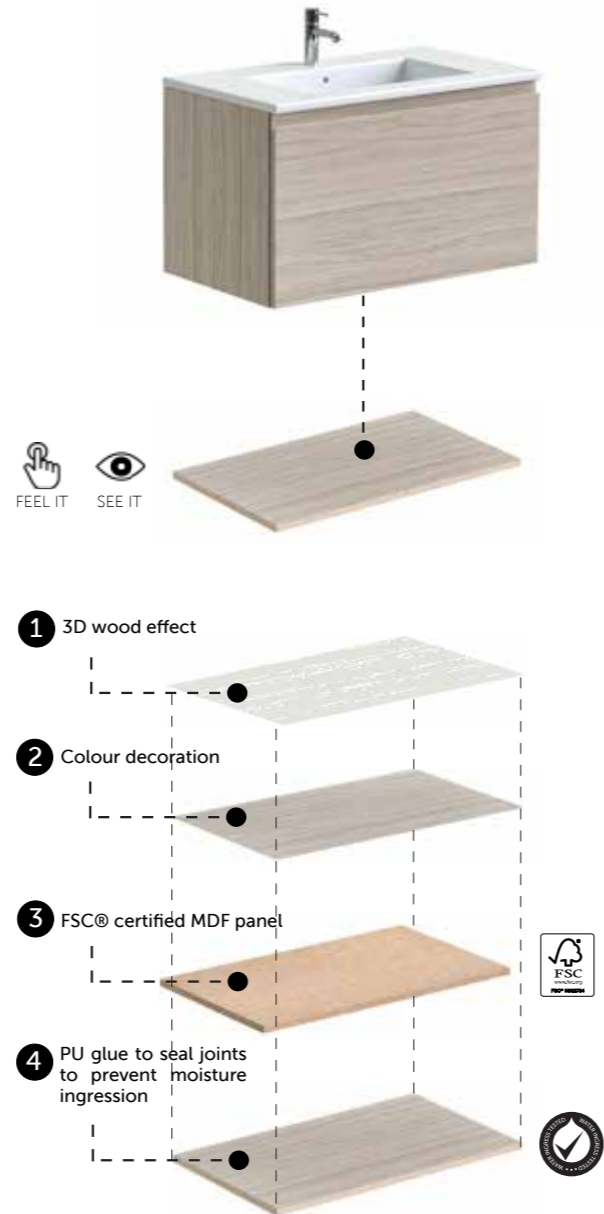

LAMILAK

TECHWOOD

LAMILAK is the new gloss material that exudes consistent quality and performance. The brilliant high gloss shine gives a striking smooth surface final appearance. To protect the environment, LAMILAK is produced from PET recyclable material.

لاميلاك هي مادة اللامعان الجديدة التي تتضح بجودة وأداء متسقين. يعطي اللامعان الشاهق ومظهرًا نهائيًا ناعمًا للسطح لحماية البيئة، يتم إنتاج لاميلاك من مادة PET القابلة لإعادة التدوير.

TECHWOOD is the new wood effect material that gives the tactile impression of real wood. Revel in the touch and feel of its vibrant texture. To protect the environment, TECHWOOD is produced from polypropylene recyclable material.

تكنو وود هي مادة جديدة ذات تأثير خشبي تعطي الطابعًا ملموسًا بالخشب الحقيقي. استمتع بلمسة وإحساس قوامه النابض بالحياة. لحماية البيئة، يتم إنتاج تكنو وود من مادة البولي بروبيلين القابلة لإعادة التدوير.

# RAK-PLANO MATERIALS

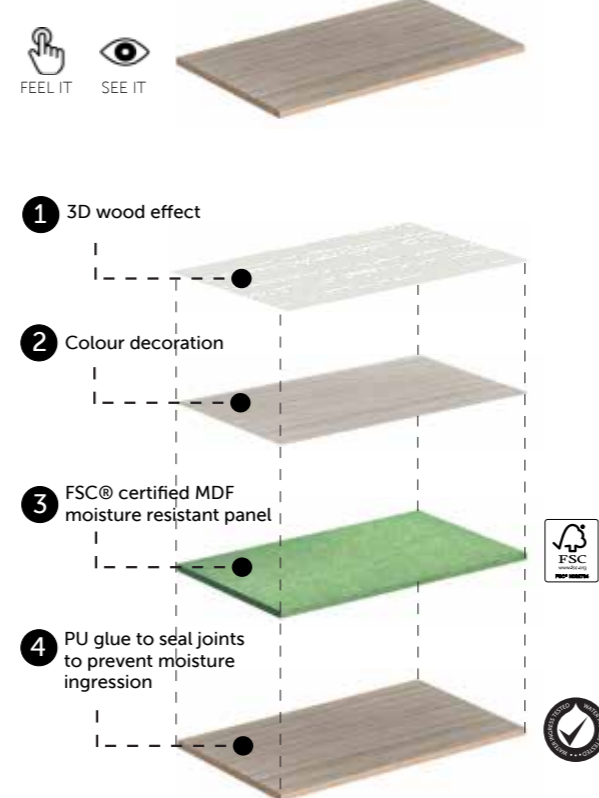

## RAKSOLID

RAKSOLID is the new durable solid surface material, composed of a mixture of natural minerals and resins. It exudes consistent quality and performance. The elegant matte white finish gives a distinctive feel to the vanity surface and it is pleasant to the touch.

راك صوليد هي مادة صلبة متينة جديدة للسطح، تتكون من مزيج من المعادن والراتنجات الطبيعية. إنها تتضح بجودة أداء متسق. يعطي اللون الأبيض الأنيق غير اللامع إحساساً مميزاً لسطح الخزن وهو ممتع اللمس.

## TECHWOOD

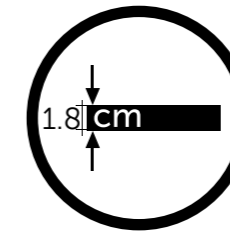

TECHWOOD is the new wood effect material that gives the tactile impression of real wood. Revel in the touch and feel of its vibrant texture. To protect the environment, TECHWOOD is produced from polypropylene recyclable material.

تيك وود هي مادة جديدة ذات تأثير خشبي تعطي انطباعاً ملموساً بالخشب الحقيقي. استمتع بملمسها النابض بالحياة، لحماية البيئة، يتم إنتاج تيك وود من مادة البولي بروبيلين القابلة لإعادة التدوير.

# RAK-PLANO CUSTOMIZATION

RAK-Plano surfaces made of RAKSOLID, are easy to cut and drill during the installation. The cut can easily be carried out on site by the installer, with common wood tools. RAK-Plano gives you the possibility to install the washbasin and the faucets in your favorite position and offers you the chance to change your mind onsite (before drilling) and to revise your project if needed.

## Some examples of customization

أسطح راك-بلانو مصنوعة من راك-سوليد، من السهل قطع وحفر أسطحها خلال التثبيت. يمكن إجراء القطع في الموقع بسهولة بواسطة المثبت باستخدام أدوات خشبية مشتركة. يمنحك راك-بلانو إمكانية تركيب حوض الغسيل والحنفيات في وضعك المفضل ويوفر لك فرصة لتغيير رأيك في الموقع (قبل الحفر) ومراجعة مشروعك إذا لزم الأمر.

# RAK-FEELING SHOWER TRAYS

SHOWER  
TRAYS

RAK-Feeling is made of RAKSOLID, a durable material composed of a mixture of natural minerals and resins. The elegant matte finish with stone effect gives a distinctive feel to the shower area, as well as a pleasant to the touch and more anti-slip safety.

RAK-Feeling shower trays can be installed flush to floor, semi-recessed or directly onto the floor.. RAK-Feeling products are ideal for both new buildings and renovations, thanks to the minimum dimensions of 5.8 cm required under the shower tray for the waste.

يمكن تركيب أحواض الاستحمام المسطحة راك-فيلينك مثبت داخل الأرض أو في تجويف جزئي أو على الأرض مباشرة. وتعد منتجات راك-فيلينك مثالية للمباني الجديدة والمعاد تجديدها على حد سواء، بفضل الأبعاد الصغيرة البالغة ٥.٨ سم واللازم توافرها أسفل حوض الاستحمام لتجميع النفايات.

#### INSTALLATION VARIANTS | تركيب متعدد الاستخدامات

REPAIR  
قابلة للإصلاح

RAK-Feeling is only 3cm thin and its surface inhibits the growth of bacteria and fungi to ensure greater safety and hygiene. All the shower trays feature excellent resistance to chemical products. This is confirmed by the strictest chemical resistance tests required by the EN 14527 standard. They are not affected by exposure to light. This is confirmed by xenon arc lamp tests, which simulate sunlight on shower trays and verify the effects of ageing (EN ISO 4892 standard). Our RAKSOLID material meets the highest safety standards, being classified in DIN 51097 Class C (the highest achievable level of slip resistance). It prevents slipping on surfaces with an inclination angle of more than 24°. In the event of chips and scratches, shower trays can be restored to their original condition using a special repair kit.

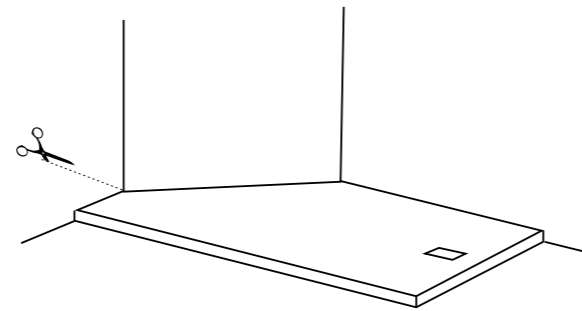

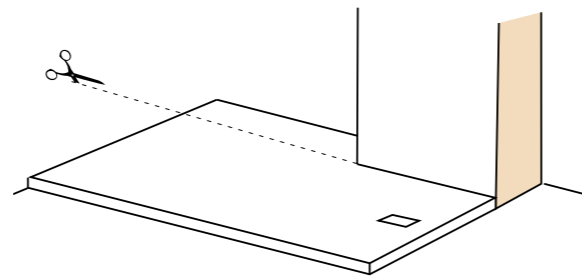

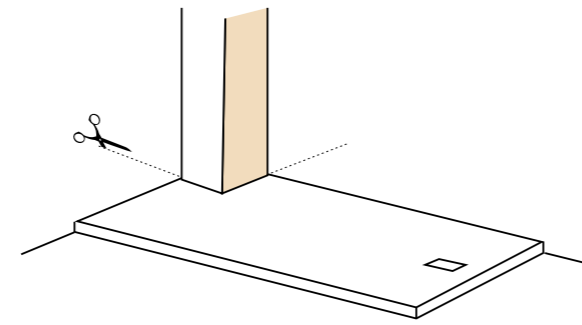

يبلغ سمك راك-فيلنج ٣ سم، وسطحه مقاوم لنمو البكتيريا والفطريات لضمان مزيد من الصحة والسلامة. جميع أحواض الاستحمام مزودة بطبقة مقاومة ممتازة للمواد الكيميائية. ويتأكد ذلك من خلال اختبارات المقاومة الصارمة للمواد الكيميائية التي يتطلبها معيار EN 14527، ولا تتأثر بتعرضها للضوء. حيث يتأكد ذلك من خلال اختبارات مصابيح الزينون القوسية، التي تحاكي ضوء الشمس على أحواض الاستحمام مع التحقق من آثار الإجهاد (معيار EN ISO 4892). كما تطابق مادة راك-سوليد أعلى معايير السلامة، والمصنفة ضمن الفئة دي.أي.ان ١٠٩٧ (أعلى مستوى يمكن تحقيقه من مقاومة الانزلاق). فهي تمنع الانزلاق على الأسطح بزواوية ميل تزيد على ٢٤ درجة، وفي حالة التعرض للتنشيط والخدوش، يمكن إعادة أحواض الاستحمام إلى حالتها الأصلية باستخدام مجموعة إصلاح خاصة.

**FLUSHING  
SYSTEMS**  
أنظمة التنظيف

## Can we save water in our bathrooms?

One of the easiest ways to save water is to install a toilet with a dual-flush cistern. Dual-flush cisterns let the user choose how much water to use when flushing the toilet and they are designed for wall-hung, back-to-wall and close coupled water closets.

RAK Ceramics flushing systems, allow you to choose using the full flush or the half flush, with different flushing volumes: 6 Liters for the full and 3 Liters for the half flush. The cisterns can also be adjusted to flush with a reduced full flush volume at 4.5 Liters.

For countries with limited water resources, RAK Ceramics has developed innovative water closets perfectly flushing with a reduced 3 Liters single flush.

By using a lower volume of water to flush the toilet you can dramatically reduce your annual water consumption.

### DUAL FLUSHING:

# RAK-MAXXFLUSH

Dual flush valve FS60FLRF

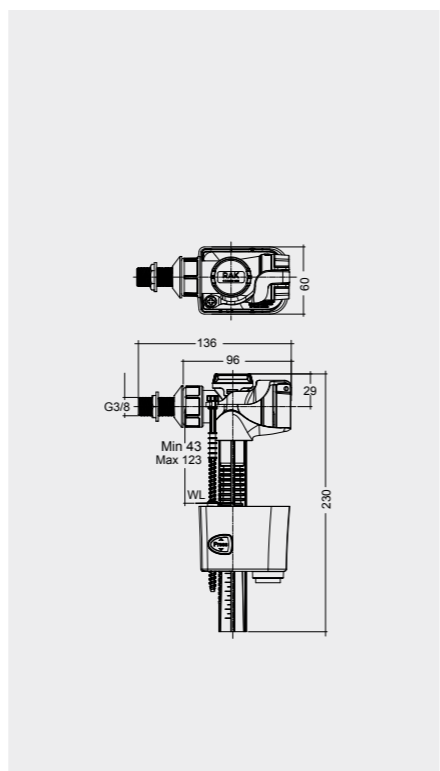

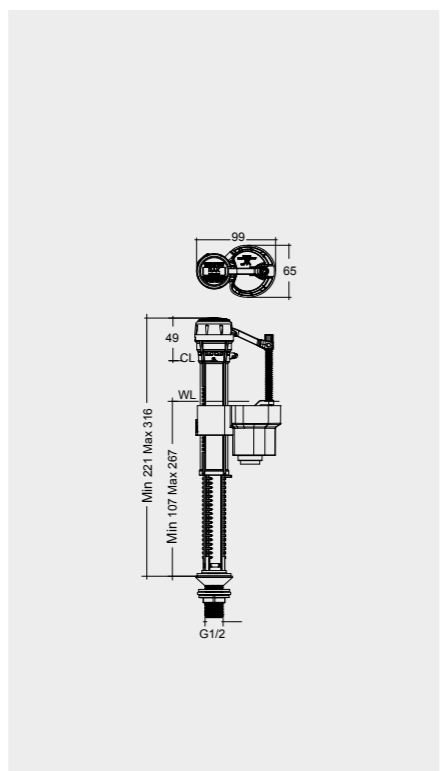

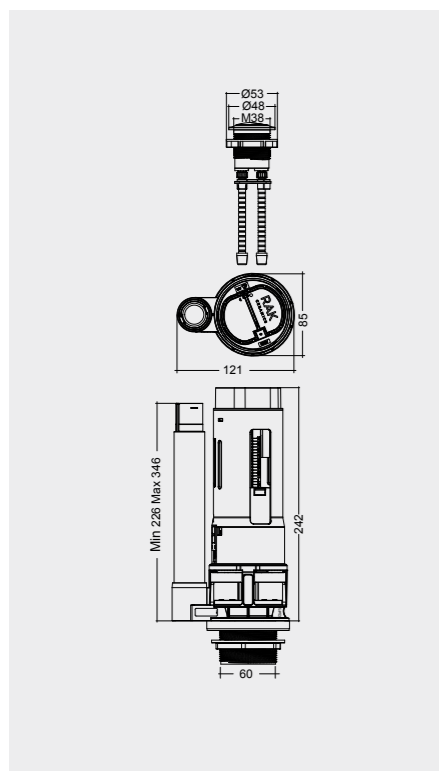

Bottom inlet valve FS60FLRI

Side inlet valve FS60FLRSI

## Dual Push Button Included

# RAK-ECOFIX

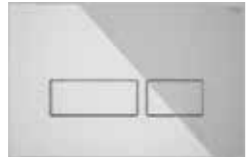

FLUSHING SYSTEM

**RAK-Ecofix** Flushing systems by RAK Ceramics are the ideal solution for all types of hydro-sanitary systems. Invisible built-in flushing systems combine functionality and aesthetics, saving space in every bathroom. The new and elegant push plates integrate perfectly with any style and design of dual flush systems to reduce water consumption.

RAK-Ecofix not only offers limitless installation possibilities, but a flat designed range of push plates in 3 elegant finishes and 2 different designs. The push plate is the only visible part of the concealed cistern and is built for the water saving dual system flush in volumes 6-3 liters or 4.5-3 liters. Another possibility to move functionality and style into your bathroom.

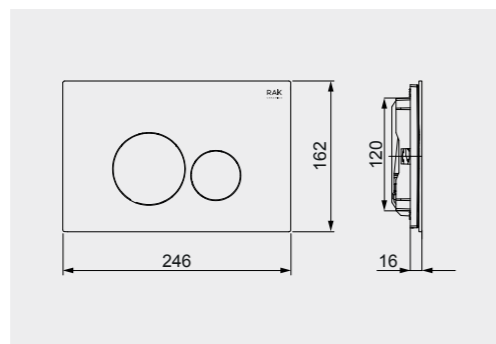

راك-إكوفيكس ليس فقط يوفر إمكانيات التركيب الا محدودة، وإنما أيضا يوفر مجموعة تصاميم مسطحة للوحات دفع في 3 تشطيبات أنيقة وتصميمين مختلفين. لوحة الدفع هي الجزء المرئي الوحيد من الخزان المخفي، وهي مصممة لتوفير المياه المزدوج لنظام دافق في أحجام 6-3 لتر أو 4.5-3 لتر. راک-إكوفيكس إمكانية أخرى للانتقال بوظائف وأسلوب الحمام الخاص بك.

# RAK-ECOFIX / FURNITURE CISTERNS & UNIVERSAL FRAME

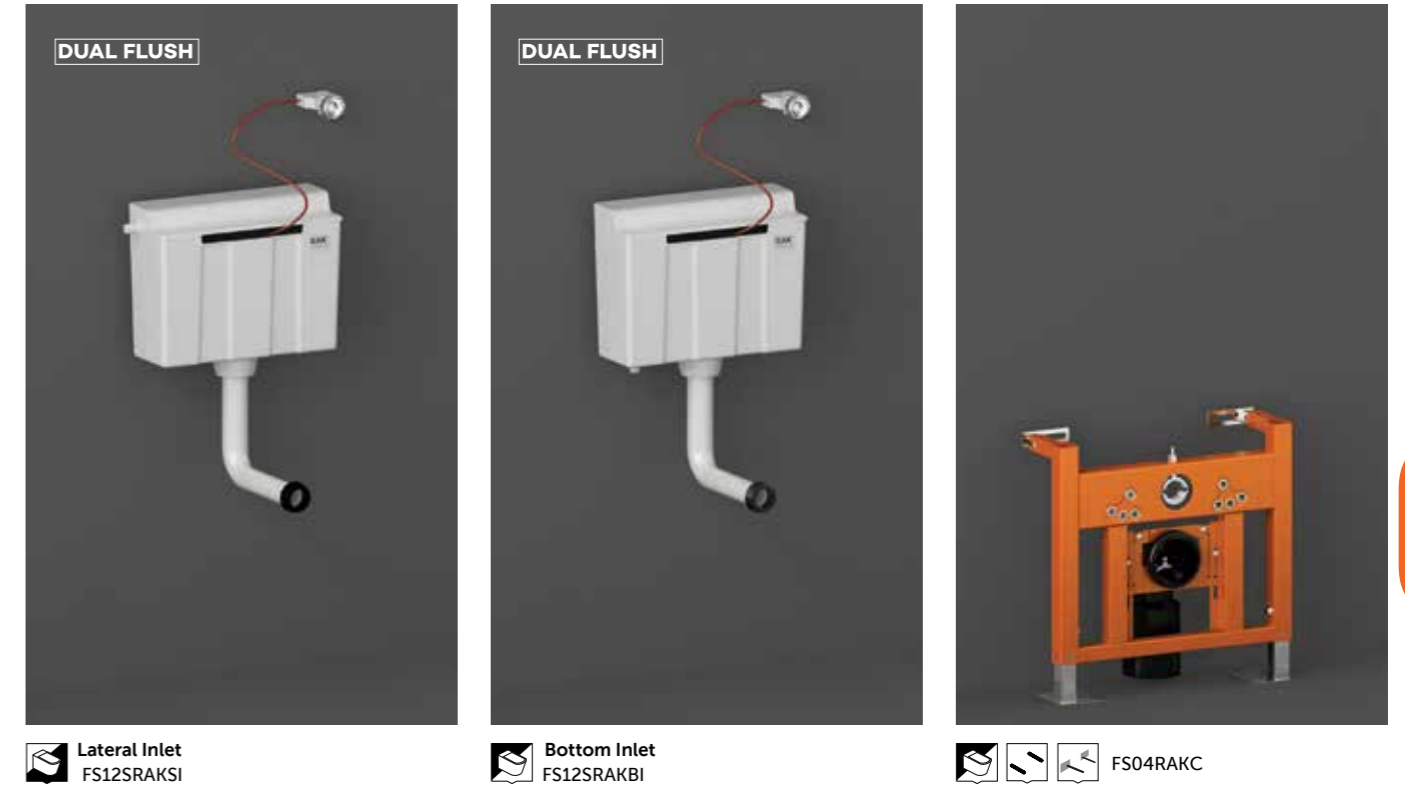

RAK-Ecofix low height concealed cisterns are designed to fit even the smallest furniture units on the market. The easy to fit cistern can be accessed for maintenance simply through the removable front panel of the furniture unit, or from the top via a removable shelf.

تم تصميم صهاريج راك-إكوفيكس مخفية ومنخفضة الارتفاع لتناسب حتى أصغر وحدات الأثاث في السوق. كما يمكن الوصول السهل من أجل الصيانة للصهريج بسبب طريقة تركيبه ببساطة من خلال اللوحة الأمامية القابلة للإزالة من وحدة الأثاث، أو من الأعلى عن طريق رف قابل للإزالة.

# راك-ايكو فيكس / مفروشات صهاريج وإطار مشترك

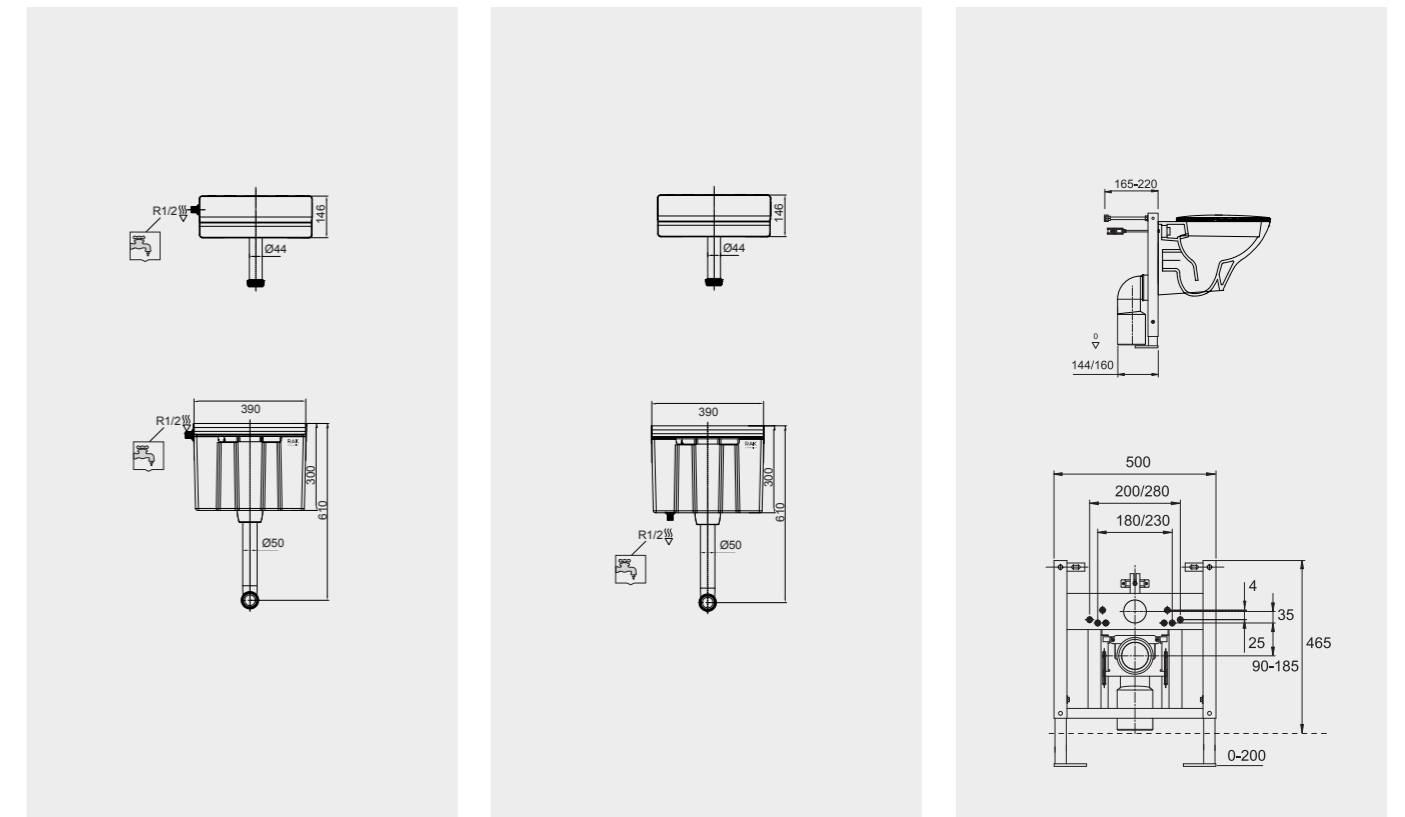

## Models

## النماذج

## Measurements

## القياسات

RAK-Ecofix range includes urinal electronic sensor system. The sensor automatically flushes the individual urinal after use, ensuring the highest level of hygiene from the minimum volume of water.

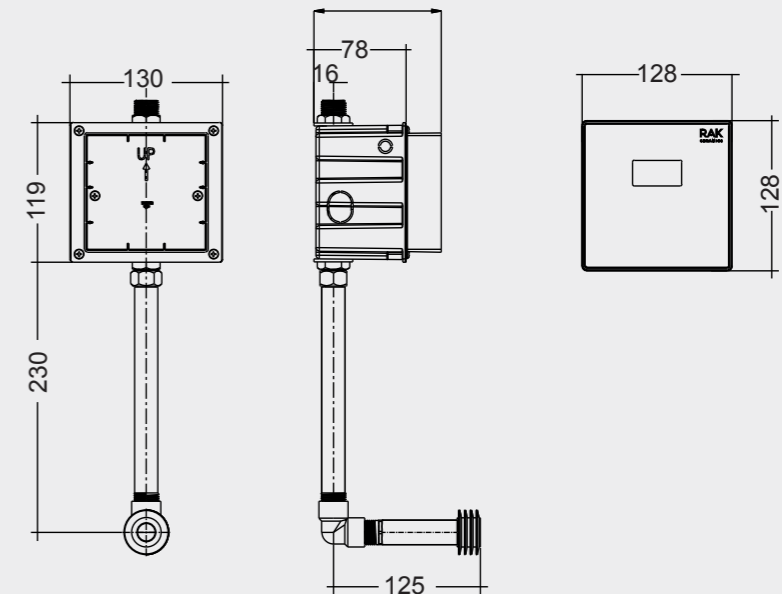

وتشمل مجموعة راک-إكوفيكس نظام دافق شطف مبولة حساس. يقوم تلقائياً بشطف المبولة الفردية بعد الاستخدام، مما يضمن أعلى مستوى من النظافة مع الحد الأدنى لحجم الماء.

### SOLID WALL INSTALLATION

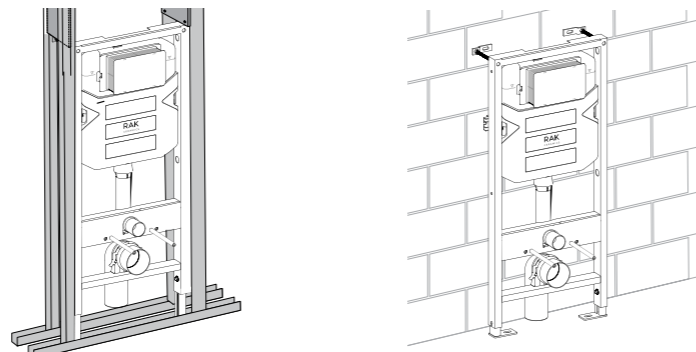

The concealed cistern can be easily fastened in front of or inside a solid wall and then brick lined.

إمكانية تركيب الصهاريج المخفية في داخل الجدران الصلبة من جهة الأمام ثم تكملة عملية البناء بالطوب

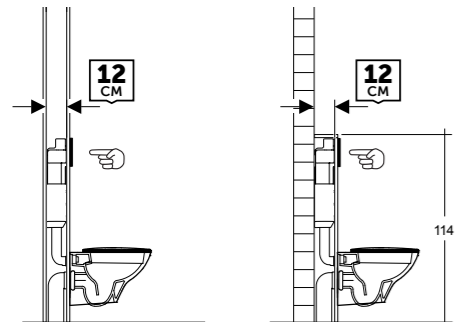

RAK-Ecofix installation elements are suitable for solid constructions and for all drywall construction situations  
تركيبات راك-إكوفيكس مناسبة للإتصالات الصلبة وجميع حالات جدران الجبس.

### DRYWALL INSTALLATION

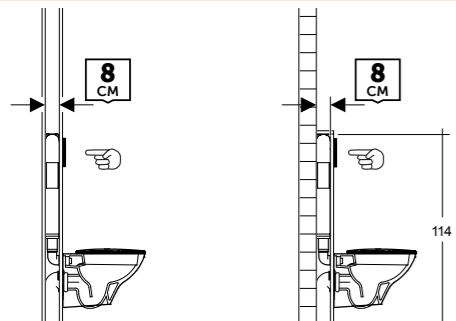

With a drywall system it is possible to create complete room-height prewalls or partitions.

مع نظام جدران الجبس يمكنك تصميم غرفة كاملة وإرتفاعات تتناسب مع الجدران والقواطع

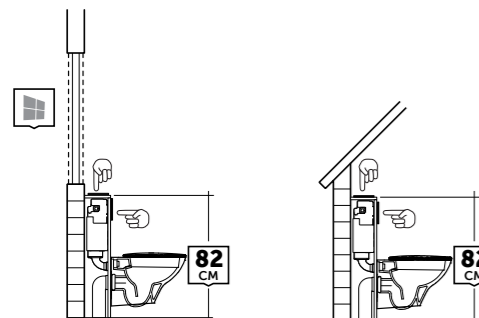

### 12 cm wall-thickness

In the wall or in front of it, with flushing actuation from the front

### 8 cm wall-thickness

For thin walls or for space-saving installations, with flushing actuation from the front.

### Low-height situations

Special element height 82 cm, with top or front flushing actuation.
