Walk with Confidence

Stairs are used in place of elevators in buildings or houses and also play a very important role as emergency exit areas in office buildings and commercial spaces. Traditional staircases which are made of using granite or marble have slippery surfaces and may chip or crack during usage.

With RAK's step & riser collection, these issues can be minimized. A full body vitrified tile with 11.5 mm thickness & water absorption less than 0.08% to have higher strength. All the tiles in this collection have full bull nosing to avoid the chipping. The surface of the tile is anti-skid and has self-embossed tread lines to have confidence while stepping up. The collection name "Confi" is derived from the word "Confidence" that customers should feel while stepping up on our tiles.

9 beautiful shades to elevate the aesthetic beauty of the entire space whether it is interior or exterior.
