Form and substance

Too often, ceramics are discussed only as finishes. At RAK, the opposite is true. As one of the world's largest ceramic manufacturers, the company operates across continents, with production facilities in the United Arab Emirates, India, and Bangladesh, alongside a presence that spans across 150 countries. This scale helps us refine our products in terms of design and testing. Our designers and engineers pay close attention to how surfaces are used, cleaned, worn down, and relied upon, which is why our innovations usually begin with practical questions.

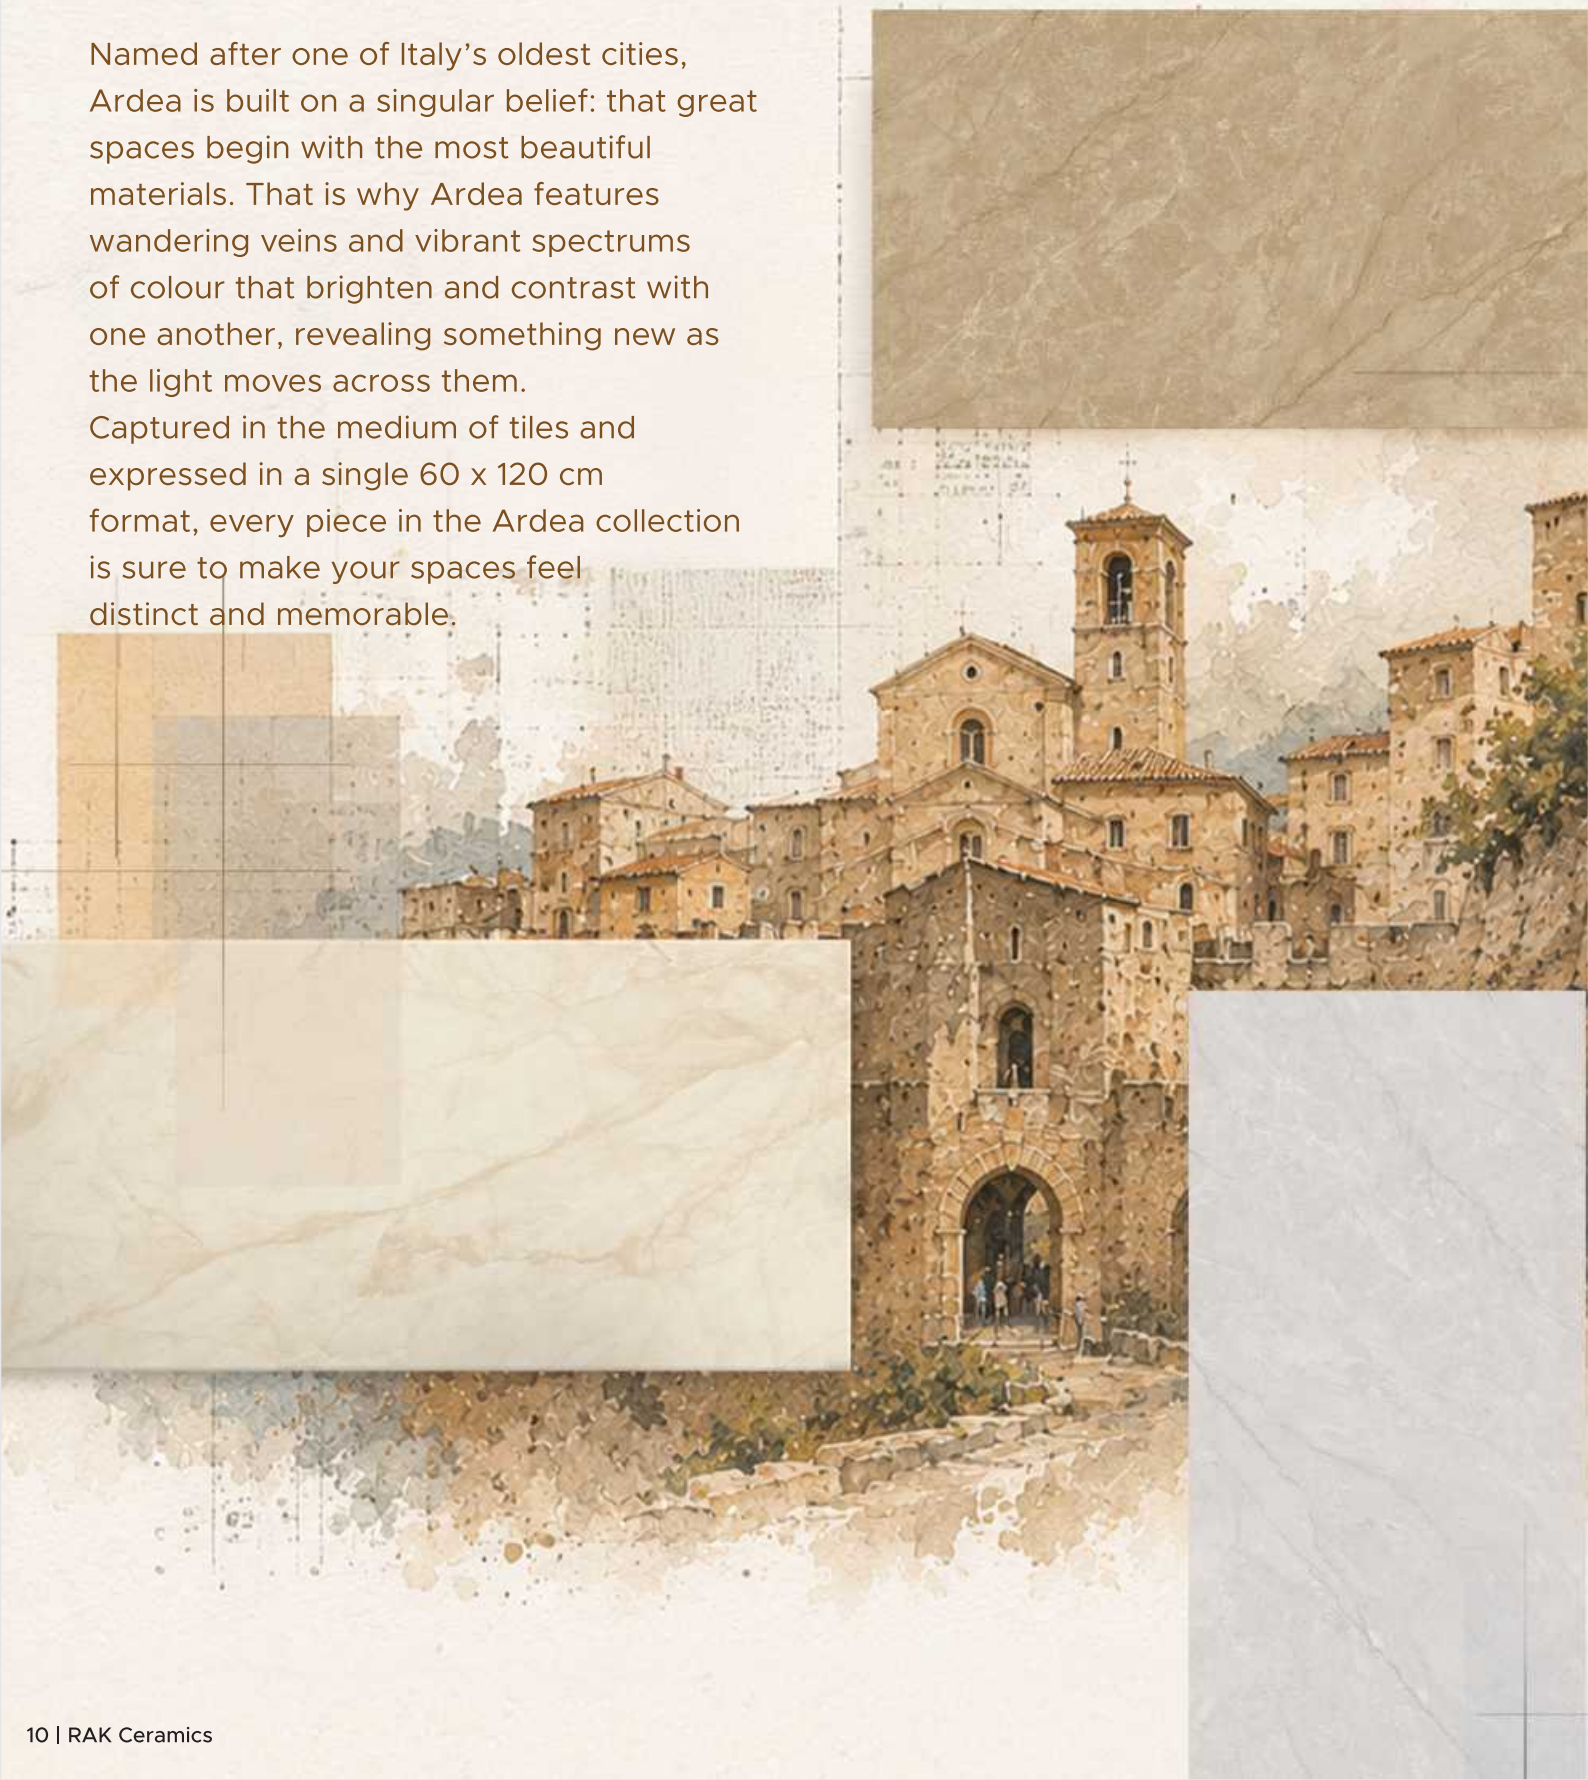

How does a floor respond to extreme heat? How does light interact with large slabs? How do materials age in old family homes?

Perhaps that is why RAK Ceramics has remained a dependable partner to renowned architects, interior designers, developers, and homeowners. It all boils down to one thing: build well and let the material do the work.

ARDEA

It’s virtually impossible to tear one’s eyes away from something truly stunning. This sentiment rings especially true with the Ardea collection.

Named after one of Italy’s oldest cities, Ardea is built on a singular belief: that great spaces begin with the most beautiful materials. That is why Ardea features wandering veins and vibrant spectrums of colour that brighten and contrast with one another, revealing something new as the light moves across them.
Captured in the medium of tiles and expressed in a single 60 x 120 cm format, every piece in the Ardea collection is sure to make your spaces feel distinct and memorable.

TECHNICAL SPECIFICATION

ICONS

TYPOLOGY

VT VITRIFIED TILES

CB COLOR-BODY VITRIFIED TILES

FB FULL-BODY VITRIFIED TILES

EDGE

RECTIFIED

SURFACE STRUCTURE

S SMOOTH

Tiles with an even and regular surface, free from perceptible projections, lumps, or indentations.

LS LIGHT STRUCTURE

Tiles with an uneven, irregular surface, with a structure perceptible to the eye and touch.

HS HEAVY STRUCTURE

Tiles with a highly irregular surface.

FINISH

N NATURAL

Pressed tiles with no further work after firing.

L LAPPATO

Semi-polished/honed products achieved by polishing the tile's surface with an abrasive wheel, not long enough to attain the luster of a typical polished tile.

FL FULL LAPPATO

A ceramic lapping process performed with the finest abrasive grain, aimed at removing the smallest imperfections and glaze.

P POLISHED

Pressed tiles with a smooth pad, subjected to strong mechanical processing, by removing a significant amount of material after firing, making the surface bright.

SURFACE LOOK

M MATT

For a natural looking surface.

S SATIN

For a satin-like surface look. Smooth and velvety to the touch.

G GLOSSY

The surface has a medium degree of reflection.

HG HIGH GLOSSY

The surface is highly reflective, almost mirror-like.

COLOUR VARIATIONS

V1 EVEN

The least amount of shade variation attainable.

V2 LIGHT

Light to moderate shade variation within each carton.

V3 MEDIUM

Medium shade variation within each carton.

V4 STRONG

Strong shade variation within each carton.

INDICATIONS FOR USE

WALL TILES

FLOOR TILES

COUNTERTOP SURFACE

SUGGESTED APPLICATIONS

DOMESTIC PURPOSE

Residential areas, hotel rooms and bathrooms.

LIGHT COMMERCIAL TRAFFIC AREA

Indoor public areas subject to medium pedestrian traffic such as restaurants, bars, offices, shops, hotel and convention rooms.

HEAVY COMMERCIAL TRAFFIC AREA

Industrial floors such as ware houses, deposits, factories.

OUTDOOR

Outdoor public environments subject to medium pedestrian traffic such as outdoor terraces, stairs, corridors, raised paving, private garden, swimming pool and wellness areas. Always check slippery characteristics against the intended environment, in conformity with applicable regulations or laws.

TECHNICAL SPECIFICATION - Bla

TEST DESCRIPTION	STANDARD TEST METHOD	ISO 13006 : 2018 SPECIFICATION	RAK CERAMICS SPECIFICATION 60x120 CM | 60x60 CM
