RAK

CERAMICS

Focused on ceramics' expertise

RAK Ceramics is one of the largest ceramics' brands in the world. Specialising in ceramic and gres porcelain wall and floor tiles and sanitaryware, the company has the capacity to produce 123 million square metres of tiles and 5 million pieces of sanitaryware per year at its state-of-the-art plants across the United Arab Emirates, India and Bangladesh.

Founded in 1989 and headquartered in the United Arab Emirates, RAK Ceramics serves clients in more than 150 countries through network of operational hubs its in Europe, Middle East and North Africa, Asia, North and South America and Australia. Across global operations the company employes approximately 12,000 staff from more than 40 nationalities. RAK Ceramics is a publicly listed company on the Abu Dhabi Securities Exchange in the United Arab Emirates and as a group has an annual turnover of approximately US\$1 billion.

RAK Ceramics was established in Ras Al Khaimah in 1989 by H.H. Sheikh Saud Bin Saqr Al Qasimi, member of the Supreme Council and Ruler of Ras Al Khaimah, who aspired to have the best machinery, latest technology, and to produce the best products possible for sale in the world.

TECHNOLOGIES

INNOVATE. AUTOMATE. ELEVATE.

Latest technology and manufacture

RAK Ceramics is internationally recognized for the high quality of its sanitary ceramics. This quality comes from carefully selected premium raw materials that ensure a perfect finish of the products. Better ingredients, better sanitaryware!

At RAK Ceramics we are not just ceramic experts. We also manufacture seat covers, bathtubs, showertrays, furniture mirrors and accessories.

Quality makes us different

RAK Ceramics was the first company in United Arab Emirates being awarded with **ISO 9001 certification** by internationally recognized UK certification body “CICS” (Ceramic Research Institute Certification Scheme) for ceramics tiles and sanitary wares. Bureau Veritas Certifications verified the implementation of RAK Ceramics’ quality management system and certified the company in compliance with the requirements of **ISO 9001:2015** with the scope covering the design, development, production and supply of ceramics and porcelain floor and wall tiles, slabs and vitreous china sanitary wares.

Bureau Veritas Certifications also certified RAK Ceramics for **ISO 14001:2015 Environmental Management System**.

Every phase of the RAK Ceramics sanitaryware production process counts on strict quality control procedures. The leadership in the GCC Region and the strong presence in several other international markets reflect our everyday efforts. Our internal Norms comply and exceed the international requirements in terms of quality and performance.

Its Testing Laboratory is operating in accordance to **ISO/IEC 17025** accredited by NATA (National Association of Testing Authorities, Australia).

A track record of expertise

RAK Ceramics' products feature in some of the most iconic buildings in the world. From the Burj Al Arab, Atlantis on The Palm and Ferrari World, to Dubai Duty Free, Wembley Stadium, The O2 Arena, Mercedes Benz Showrooms, Airports, Residential Developments and Shopping Malls all over the world.

The Geometry of Craft

Some places teach you to notice precision.
Across the world, geometry has always had a way of
turning order into beauty.
A line repeated. A pattern aligned. Light passing through a screen.

An arch finding its proportion. Simple forms, disciplined until they
become distinctive.

RAK approaches design with the same instinct.

A curve is considered.
An edge is resolved.
A proportion is refined.
And what finally appears effortless is often the result of
precision down to the last millimetre.

That is **The Geometry of Craft**.

Across every collection, the form may change. The discipline does not.
Cloud can flow. Feeling can soften. Illusion can surprise.
Petit can reduce. Yet behind every expression sits the same control of
line, proportion, material and detail.
This catalogue brings two ideas of precision together; the geometry
that gives Nature its visual character, and the geometry that gives
RAK its own.

Not geometry as decoration.
Geometry as the craft behind the form.

RAK-CLOUD

Design by Giuseppe Maurizio Scutellà

Fluid lines inspired by geometric swirls combined with changing shapes like clouds lend themselves to multiple interpretations and play with light, producing a soft enveloping effect, culminating in a sophisticated but at the same time functional and welcoming bathroom. **RAK-Cloud** is available in Back to wall, or wall-hung sanitaryware, elegant freestanding bathtubs and washbasins.

Design by **Giuseppe Maurizio Scutellà**

Giuseppe Maurizio Scutellà was born in Alcamo, Sicily. His collaboration with RAK Ceramics begins with RAK-Cloud (2018), a project that continues the creative thinking of the Italian designer and that integrates perfectly with his other projects such as the collection of lamps "Pirce" by Artemide (Good_Design 2008, Red Dot Award 2009, IF Design Award 2010) and the "Metropolis" collection of crystal and ceramic tables by Tonelli Design.

"I like to talk with the soul of all my projects, discover its history and capturing the most hidden hues of its character, respecting its nature and embracing its languages. It is my way of approaching its magical essence and becoming its interpreter".

RAK-VALET

Design by Patrick Norguet

Patrick Norguet creates a surprising new bathroom project for RAK Ceramics: RAK-Valet.

A set of visions, designs, exclusive shapes and fast rhythms that lead to unexpected solutions, a hallmark of Norguet's approach to each of his new creations. RAK-Valet represents all the creative genius of the French designer, combined with the reputation of Rak Ceramics for manufacturing quality and project completion. The collection consists of functional elements, that fully service the bathroom experience: a space that is increasingly the protagonist of every interior design project, residential or contract, a key environment for the harmony and character of each creation, classic or contemporary, but always unique.

Design by Patrick Norguet

Patrick Norguet is an essential figure on the international design scene.

After completing his design studies at the ESDI, Patrick Norguet was commissioned to design the display windows of two major players in the luxury industry: Yves Saint-Laurent and Louis Vuitton. From these experiences, he gained an understanding of brand identity and the way of showcasing it. Designing Renault's event stands helped him to hone and apply his synthesis skills to ephemeral architectures.

In 2000, his Rainbow Chair, noticed and produced by Giulio Cappellini, gave him visibility that quickly spread thanks to the international media. He then opened his studio in Paris. His early furniture collections for Bernhardt, Artifort, Offect, Capdell or the French companies Alki and Tolix validated and established his presence at international shows. In 2010, designing one McDonald's restaurant in France gradually led to a collaboration with McDonald's Global. Patrick Norguet has become an emblematic figure of French design.

Alias, Arflex, Artemide, Cassina, Emu, Ethimo, Glass Italia, Kristalia, Lea Ceramica, Pedrali, de Padova, and Tacchini quickly recognized his talent and authority and fully involved him in the production process and strives to create long-lasting collections. Drawing inspiration from everything that surrounds him, Patrick Norguet does not follow trends but seeks to give shape to products whose relevance and modernity would withstand the test of time: "A well-designed object, an object created through generous collaboration is timeless."

P. Norguet.

RAK-DES

RAK-Des is a new concept bathroom suite that pays tribute to the Bauhaus school from which it draws inspiration, marking the centenary of its foundation in 1919. Defined by essential minimalist lines, the collection includes countertop bowls and freestanding washbasins that embody the purity and functionality of contemporary design. The rectangular washbasins can be installed suspended or used individually, offering a refined and versatile solution for modern bathroom spaces.

RAK-SKIN

RAK-Skin represents more than just an exclusive collection of washbasins; it epitomizes a distinctive and avant-garde finishing touch. The innovative materials utilized possess a gentle, embracing quality, resulting in an extraordinarily refined aesthetic. The impact is truly unique, specially crafted for extraordinary environments. When paired with RAK Ceramics' bathroom furniture featuring wood-effect materials, RAK-Skin washbasins elevate the bathroom into a realm of exceptional comfort, achieved through a harmonious interplay of warm-toned finishes. Conversely, when adorned with the stone effect, the washbasins take on a starring role in creating contrast; the fusion of warm and cold hues yields a soft and soothing outcome.

TACTILE MATERIALS FOR MODERN DESIGN

Touching is not just a sensation, but a human need and today interior design aims at recapturing through it the real essence of life, reacting in this way to the overwhelming presence of technology and digitalism in our everyday lives. In an increasingly digital world, the desire for physicality and authenticity is growing. A desire that translates into tactile and natural materials made to be touched with the eyes, even before with the hands. Tactile materials play a leading role in design lately: from floors to walls, from furniture to bathroom products. Many variations, one goal: to convey a feeling of comfort and warmth. Thus color, matter and light interact on the surfaces, defining the character of the environments. Material surfaces have the power to reconnect with nature and make us feel positive emotions. Important feelings to live in our homes, which have become a real need.

RAK-Skin was born from this need of physicality, and the pursuit of harmony with domestic contexts minimalist and sophisticated style, made of natural colors and materials with a strong and distinctive character.

RAK-VARIANT

Design by Daniel Debiasi and Federico Sandri

Round, oval, square... what's the shape of your freedom? Feel free to design, free to explore new solutions for your bathroom project, free to imagine. **RAK-Variant** featuring countertop, drop-in and under counter washbasins. Different shapes and different sizes with or without tap bank. Made from high-quality ceramic in 5mm thickness,

Design by Daniel Debiasi and Federico Sandri

Daniel Debiasi and Federico Sandri founded their own design studio in 2010 and work within various fields of design, ranging from objects to spaces. Multiple experiments and the relationship between manufacture and craftsmanship form the basis for a much broader thinking, where objects are always considered as part of a bigger picture. They have created work for Antoniolupi, Lema, Ligne Roset, Normann Copenhagen, Offecct, Rosenthal, Stelton, Villeroy & Boch among others. Many of their projects have received international design awards and are featured in publications worldwide. In addition to their work as designers, they regularly teach, hold workshops and lectures at various institutions including IUAV Venezia and Politecnico di Milano. Together with Rak Ceramics, Daniel Debiasi and Federico Sandri present the project RAK-Variant (2019).

RAK-PETIT

Design by Giuseppe Maurizio Scutellà

RAK-Petit is the second chapter of the successful collaboration with Maurizio Scutellà. A transversal collection of small washbasins designed for architects and interior designers who address the theme of small spaces: with minimal shapes and small dimensions, RAK-Petit is perfect for small but special bathrooms and for furnishing elegant public spaces, freestanding washbasins for representative or public bathrooms.

Design by Giuseppe Maurizio Scutellà

Giuseppe Maurizio Scutellà was born in Alcamo, Sicily. His collaboration with RAK Ceramics begins with RAK-Cloud (2018), a project that continues the creative thinking of the Italian designer and that integrates perfectly with his other projects such as the collection of lamps "Pirce" by Artemide (Good_Design 2008, Red Dot Award 2009, IF Design Award 2010) and the "Metropolis" collection of crystal and ceramic tables by Tonelli Design. RAK-Petit is the second concept developed together with RAK Ceramics (2019).

"I like to talk with the soul of all my projects, discover its history and capturing the most hidden hues of its character, respecting its nature and embracing its languages. It is my way of approaching its magical essence and becoming its interpreter".
