RAK-Precious Solutions

Super-size, small details

RAK-Precious solutions are born from the technology developed by the tile division of RAK Ceramics' super-sized slabs collection, Maximus.

Maximus super-sized slabs offer a world of endless possibilities and applications ranging from floors and walls to countertops. RAK-Precious washbasins and surfaces are made in 14.5mm thickness that guarantees hygiene, resistance and durability similar or superior to traditional sanitaryware ceramics.

RAK-Precious washbasins feature invisible connection angles for superior water tightness and unparalleled aesthetic appeal, while RAK-Precious recessed or countertop solutions are elegantly finished with a reverse bevel edge.

Grandi lastre, piccoli dettagli

Le soluzioni RAK-Precious nascono dalla tecnologia sviluppata dalla divisione piastrelle di RAK Ceramics sulle grandi lastre con il nome di Maximus. Le grandi lastre Maximus offrono un mondo di infinite possibilità ed applicazioni che vanno dai pavimenti ai rivestimenti, fino ai piani di lavoro. I lavabi e piani d'appoggio RAK-Precious sono realizzati in spessore 14,5mm che garantisce igiene, resistenza e durata analoga o superiore alla ceramica sanitaria tradizionale. I lavabi RAK-Precious presentano angoli di raccordo invisibili per una tenuta all'acqua superiore ed un'impareggiabile resa estetica, mentre le soluzioni RAK-Precious ad incasso o piano d'appoggio sono elegantemente rifinite sul bordo esterno con spigolo Reverse Bevel.

Grands carreaux, petits détails

Les solutions RAK-Precious naissent de la technologie développée par la division de carreaux de RAK-Ceramics pour les grands carreaux de la collection Maximus. Ceux-ci offrent un monde de possibilités et d'applications infinies, à commencer par les sols et les revêtements, jusqu'aux plans de travail. Les vasques à poser et les plans de toilette RAK-Precious sont réalisés avec une épaisseur de 14,5mm qui garantit l'hygiène, la résistance et une durée analogue ou supérieure à la céramique sanitaire traditionnelle. Les lavabos RAK-Precious présentent des angles de connexion invisibles pour une compacité d'eau supérieure et un gain esthétique incomparable, alors que les solutions RAK-Precious à intégrer ou à poser sont élégamment pourfines sur le bord externe, par un rebord Reverse Bevel.

Grandes medidas, pequeños detalles

Las Soluciones de RAK - Precious nacen del desarrollo de la división de cerámicas de RAK Ceramics, formatos grandes, de la colección Maximus. Las losas de tamaño máximo Maximus ofrecen un mundo de infinitas posibilidades y aplicaciones que van desde suelos y paredes hasta encimeras. Los lavabos y superficies RAK-Precious se fabrican en 14,5 mm de grosor, lo que garantiza una higiene, resistencia y durabilidad similares o superiores a las cerámicas sanitarias tradicionales. Los lavabos RAK-Precious presentan ángulos de conexión invisibles para una estanqueidad superior del agua y un atractivo estético sin igual, mientras que las soluciones RAK-Precious empotradas o de encimera están elegantemente acabadas con un borde bisel inverso.

Große Platten, kleine Details

Die Lösungen RAK-Precious entstehen durch die Entwicklung der Technologie seitens der Plattenabteilung von RAK-Ceramics, auf großformatigen Platten der Kollektion Maximus. Diese bieten unendlich viele Möglichkeiten und Anwendungen, von Böden und Wandverkleidungen, bis zu Arbeitsflächen. Die Aufsatzwaschbecken RAK-Precious werden mit einer Dicke von 14,5 mm hergestellt, die Hygiene, Widerstandsfähigkeit und eine Dauer garantiert, die der des traditionellen Sanitärkeramiks gleicht, oder sogar übersteigt. Die Waschbecken RAK-Precious bieten unsichtbare Eckverbindungen für eine erhöhte Wasserdichte und eine unvergleichliche ästhetische Wirkung. Die Lösungen RAK-Precious für Aufsatz- und Einbauwaschbecken hingegen, sind an der Außenkante elegant mit einem Reverse Bevel Rand versehen.

Большой размер, маленькие детали

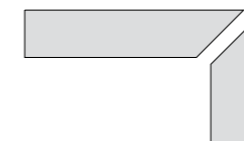

Метод изготовления RAK-Precious возник на основании технологии, пришедшей из плиточного подразделения RAK Ceramics, благодаря которой производится коллекция плитки супер большого формата Maximus. Слэбы супер больших форматов Maximus предлагают бесконечное множество вариантов применения плитки от стены и пола до столешниц. RAK-Precious раковины и столешницы RAK-Precious, толщиной 14,5 мм, гарантируют гигиену, прочность и износостойкость изделиям, согласно лучшим традициям керамической сантехники. раковины RAK-Precious отличаются скрытыми линиями соединения, что делает их не только водонепроницаемыми, но и наделяет небывалой эстетической привлекательностью, а у накладных и встраиваемых раковин RAK-Precious внешний край, в своём оформлении, имеет элегантный обратный скос.
