RAK CERAMICS

Focused on ceramics' expertise

RAK Ceramics is one of the largest ceramics' brands in the world. Specialising in ceramic and gres porcelain wall and floor tiles and sanitaryware, the company has the capacity to produce 123 million square metres of tiles and 5 million pieces of sanitaryware per year at its state-of-the-art plants across the United Arab Emirates, India and Bangladesh.

Founded in 1989 and headquartered in the United Arab Emirates, RAK Ceramics serves clients in more than 150 countries through network of operational hubs its in Europe, Middle East and North Africa, Asia, North and South America and Australia. Across global operations the company employes approximately 12,000 staff from more than 40 nationalities. RAK Ceramics is a publicly listed company on the Abu Dhabi Securities Exchange in the United Arab Emirates and as a group has an annual turnover of approximately US\$1 billion.

RAK Ceramics was established in Ras Al Khaimah in 1989 by H.H. Sheikh Saud Bin Saqr Al Qasimi, member of the Supreme Council and Ruler of Ras Al Khaimah, who aspired to have the best machinery, latest technology, and to produce the best products possible for sale in the world.

Latest technology and manufacture

RAK Ceramics is internationally recognized for the high quality of its sanitary ceramics. This quality comes from carefully selected premium raw materials that ensure a perfect finish of the products. Better ingredients, better sanitaryware!

At RAK Ceramics we are not just ceramic experts. We also manufacture seat covers, bathtubs, showertrays, furniture mirrors and accessories.

Quality makes us different

RAK Ceramics was the first company in United Arab Emirates being awarded with **ISO 9001 certification** by internationally recognized UK certification body “CICS” (Ceramic Research Institute Certification Scheme) for ceramics tiles and sanitary wares. Bureau Veritas Certifications verified the implementation of RAK Ceramics’ quality management system and certified the company in compliance with the requirements of **ISO 9001:2015** with the scope covering the design, development, production and supply of ceramics and porcelain floor and wall tiles, slabs and vitreous china sanitary wares.

Bureau Veritas Certifications also certified RAK Ceramics for **ISO 14001:2015 Environmental Management System**.

Every phase of the RAK Ceramics sanitaryware production process counts on strict quality control procedures. The leadership in the GCC Region and the strong presence in several other international markets reflect our everyday efforts. Our internal Norms comply and exceed the international requirements in terms of quality and performance.

Its Testing Laboratory is operating in accordance to **ISO/IEC 17025** accredited by NATA (National Association of Testing Authorities, Australia).

We play our role for a better environment and society

Sustainability in every sphere of business is one of the main elements of RAK Ceramics mission statement. The company is committed to practicing environmental stewardship throughout its manufacturing chain – from product design and efficient operations processes – and to playing an active role in building a better community by enhancing the surrounding environment. Organization’s activities improve energy efficiency, reduce pollution, enhance biodiversity and improve the quality of life for both people in the communities it operates in and for its workforce. It recycles natural raw materials to help conserve natural resources and adopts clean development mechanism (cdm) projects to reduce carbon emissions during the manufacturing process.

RAK Ceramics is the first ceramics manufacturing company in its region to produce a global reporting initiative (GRI) sustainability and corporate social responsibility (CSR) report, based on the latest GRI-g4 guidelines. RAK Ceramics is a founding member of Emirates Green Building Council, which supports the development of sustainable buildings in the UAE.

FROM RESPONSIBLE SOURCES FSC® CERTIFIED

The RAK-JOY wooden furniture collection respects the environment and the life of the furniture itself. All particleboard and MDF used in the construction of this striking furniture collection comes from responsible sources FSC certified, respecting the forests, the people and wildlife who call them home.

For more information: www.fsc.org

A track record of expertise

RAK Ceramics' products feature in some of the most iconic buildings in the world. From the Burj Al Arab, Atlantis on The Palm and Ferrari World, to Dubai Duty Free, Wembley Stadium, The O2 Arena, Mercedes Benz Showrooms, Airports, Residential Developments and Shopping Malls all over the world.

Rimless technology

RAK Ceramics delivers the ultimate in technology for bathroom suites. Based on similar design specifications to sanitaryware in hospitals and medical centres, RAK Ceramics Rimless water closets allows you to experience the same high standards of hygiene in your own home.

RAK Ceramics continues to set new standards of hygiene and water efficiency in the sanitaryware industry, with uniquely engineered water flushing systems that effectively remove waste, helping to keep bathrooms fresh and hygienic.

WATER SAVING

Using just 4 litres for the full flush and 2.5 litres for the half flush, water usage is reduced by a third.

HYGIENIC AND EASY TO CLEAN

The water closets have no rims to harbour germs, making cleaning quick, easy and more hygienic.

SILENT FLUSH

Rimless technology allows a faster and more silent flush.

EFFICIENT DESIGN

Design and efficiency can be successfully combined. Water flows vertically and horizontally, before flushing the entire inner surface of the bowl, without splashing.

Water Saving

Easy Cleaning

Silent

Hygienic

No ledges or rim

Rimless

Updated ergonomics

Over the last 100 years, the average height of people in industrialized nations has increased approximately by 10 cm. To be innovative in design also means meeting the changes in population and their new needs in terms of ergonomics and comfort. RAK Ceramics design evolves together with human evolution.

Hidden fixation systems

Our wall hung and back to wall products are benefitting from the collaboration with Fischer Group, one of the industry leaders. The use of the most innovative Fischer fixing systems, is allowing us design freedom on the ceramic, better aesthetics and more safety for the installer.

The Hidden Fixation System is comfortable and time saving, in fact one-man installation is made possible by the clip system that keeps the ceramic held up during the installation.

RAK-Sanit A new standard for hygiene

RAK-Sanit solutions for your bathroom are produced with RAK-ProTeK, the innovative ceramic glaze developed to protect wash basins, toilets and urinals, to make them more hygienic and easier to clean. RAK-ProTeK, which is baked into the ceramic during firing, results to a smoother surface, unlike standard ceramic with irregular surface.

This feature allows the particles accumulating on the ceramic to easily slip away making cleaning more efficient and convenient.

The silver ions contained in this revolutionary glaze, kill 99.9% of bacteria in 24 hours and prevent the bacterial growth, in comparison to conventional ceramic glazing. RAK-ProTeK glaze has been tested by Artest laboratory from the Italian Ceramic district in Modena.

For more information, please scan the QR code below to view our RAK-Sanit dedicated brochure.

RAK-VALET

Design by Patrick Norguet

Patrick Norguet creates a surprising new bathroom project for RAK Ceramics: RAK-Valet.

A set of visions, designs, exclusive shapes and fast rhythms that lead to unexpected solutions, a hallmark of Norguet's approach to each of his new creations. RAK-Valet represents all the creative genius of the French designer, combined with the reputation of Rak Ceramics for manufacturing quality and project completion. The collection consists of functional elements, that fully service the bathroom experience: a space that is increasingly the protagonist of every interior design project, residential or contract, a key environment for the harmony and character of each creation, classic or contemporary, but always unique.

RAK-CLOUD

Design by Giuseppe Maurizio Scutellà

DESIGNER
COLLECTIONS

Fluid lines inspired by geometric swirls combined with changing shapes like clouds lend themselves to multiple interpretations and play with light, producing a soft enveloping effect, culminating in a sophisticated but at the same time functional and welcoming bathroom. **RAK-Cloud** is available in Back to wall, or wall-hung sanitaryware, elegant freestanding bathtubs and washbasins.

RAK-PETIT

Design by Giuseppe Maurizio Scutellà

RAK-Petit is the second chapter of the successful collaboration with Maurizio Scutellà. A transversal collection of small washbasins designed for architects and interior designers who address the theme of small spaces: with minimal shapes and small dimensions, RAK-Petit is perfect for small but special bathrooms and for furnishing elegant public spaces, freestanding washbasins for representative or public bathrooms.

BATHROOM SUITES

RAK-Des is a new concept bathroom suite that pays tribute to the Bauhaus school by which it is inspired, on the occasion of the centenary of its foundation (1919). RAK-Des includes bowls and freestanding washbasins with the essential accessories. The rectangular washbasins of this collection can be installed suspended, individually, or combined with

RAK-JOY - COLOURS AND FINISHES

Touchless flushing

Enjoy the same hands-free, germ-free experience of commercial restrooms. With the new RAK Ceramics Touchless Flushing System, this same ease of use and minimal spreading of germs has finally expanded to home use toilets. A sensor module placed underneath the toilet's cistern lid runs on four AA batteries. It utilizes emerging sensing technology, which projects an electromagnetic field that is both extremely accurate and reliable.

This type of sensor detects the user in the projected field and initiates the dual flush: 6 liters keeping the hand above the spot, or 3 liters waving the hand.

DUAL FLUSHING:

Still hand above the indicated spot for *full flush*.

Waving hand above the indicated spot for *half flush*.

Technical Information:

Sensor area is within 40mm~60mm from the surface of the cistern lid; effective diameter of the sensor area is within 100mm.

Battery life: around 2 years for family use, and 1 year for commercial using.

Override lateral push button in case of failed battery.

RAK-ILLUSION

Amazement is a great sensation of wonder, brought by something unexpected. This is exactly the base of RAK-Illusions' design. Lines so light it creates an impression of suspension. Its surprising details and unique character can make the bathroom a magical and unexpected place. RAK-Illusions is available in Back to wall, or wall-hung sanitaryware, elegant freestanding and washbasins.

Touchless flushing

Enjoy the same hands-free, germ-free experience of commercial restrooms. With the new RAK Ceramics Touchless Flushing System, this same ease of use and minimal spreading of germs has finally expanded to home use toilets. A sensor module placed underneath the toilet's cistern lid runs on four AA batteries. It utilizes emerging sensing technology, which projects an electromagnetic field that is both extremely accurate and reliable. This type of sensor detects the user in the projected field and initiates the dual flush: 6 liters keeping the hand above the spot, or 3 liters waving the hand.

DUAL FLUSHING:

Still hand above the indicated spot for *full flush*.

Waving hand above the indicated spot for *half flush*.

Technical Information:

Sensor area is within 40mm~60mm from the surface of the cistern lid; effective diameter of the sensor area is within 100mm.

Battery life: around 2 years for family use, and 1 year for commercial using.

Override lateral push button in case of failed battery.

RAK-CLEON

RAK Ceramics presents RAK-Cleon, the new toilet with integrated bidet functionality that brings you the finest in personal comfort and cleansing. An all-in-one solution that combines design and technology, to mark a superior hygiene standard in your bathroom.

Stainless Steel Hygienic Wand

Two Separate Water Nozzles

Powerful Jet 

Extra Gentle 

KEY FEATURES:

- Minimalist design, hidden technology, easy to install
- Flat, hygienic and practical remote control
- Efficient and user friendly: rear wash, feminine wash and warm air dryer
- Pleasant and safe cleansing: water temperature, spray intensity and nozzle position can be individually adjusted and saved
- Night light in 5 colors
- Energy saving mode
- Wide and comfortable seating area
- Urea soft closing seat with quick release

RAK-ProTeK

Microscopic view

A new standard for hygiene

RAK-ProTeK is the innovative ceramic glaze developed to protect wash basins, toilets and urinals, to make them more hygienic and easier to clean. RAK-ProTeK, which is baked into the ceramic during firing, results to a smoother surface, unlike standard ceramic with irregular surface.

This feature allows the particles accumulating on the ceramic to easily slip away making cleaning more efficient and convenient.

This glaze is an innovative protection against bacteria, the silver ions contained in this revolutionary glaze, kill 99.9% of bacteria in 24 hours and prevent the bacterial growth, in comparison to conventional ceramic glazing. RAK-ProTeK has been tested by Artest laboratory from the Italian Ceramic district in Modena.

Advanced functionalities made easy

RAK-Cleon's remote provides full control at your fingertips, easily and intuitively. While the three main buttons activate the main cleansing functions, the intuitive adjustment knob allows the user to select the preferred water pressure and nozzle position. All other cleansing functions appear to the user only if the RAK Ceramics logo is tapped, allowing a more advanced experience.

RAK-CLEON / BASIC CLEANSING FUNCTIONS

REAR WASH

Pleasant and reliable cleansing. Water temperature, water spray intensity and the spray wand position can be individually adjusted. The spray wand and nozzle are cleaned automatically before and after each use.

Adjustable settings:

- Water temperature (OFF, 33°C, 36°C, 39°C)
- Water flow pressure (5 levels)
- Nozzle position (5 levels)
- Nozzle oscillating movement

FEMININE WASH

Specially-developed for the needs of female users. It provides a gentle stream of water for a delicate wash. The spray wand and nozzle are cleaned automatically before and after each use.

Adjustable settings:

- Water temperature (OFF, 33°C, 36°C, 39°C)
- Water flow pressure (5 levels)
- Nozzle position (5 levels)
- Nozzle oscillating movement

WARM AIR DRYER

The use of the various cleansing functions can be followed by a gentle flow of warm drying air. The temperature and intensity of the warm air dryer can be adjusted. Operating time 180 seconds.

Adjustable settings:

- Air temperature (5 levels)
- Air flow intensity (2 levels)

STOP

Halts the current activated function.

RAK-CLEON / ADVANCED CLEANSING FUNCTIONS

WATER PRESSURE ADJUSTMENT

The water flow pressure can be intuitively adjusted to 5 different intensity levels through the rotating knob. It adapts to each user's needs, making it a customizable experience.

NOZZLE POSITION ADJUSTMENT

The position of the wand jet can be intuitively adjusted to 5 different levels through the rotating knob. It adapts to each user's needs, making it a customizable experience.

OSCILLATING MOVEMENT

During rear of feminine cleansing is possible to activate the oscillating mode pressing again the button. The wand jet moves in and out for thorough cleansing over larger areas, for a feeling of ultimate clean.

2 MEMORY SETTINGS

Personalized experience thanks to exclusive setting for 2 users. Water pressure and exact position of the nozzle can be set to individual preference.

Personal settings:

- Water flow pressure (5 levels)
- Nozzle position (5 levels)

WATER TEMPERATURE ADJUSTMENT

Pressing the dedicated button on the remote control, allows water temperature adjustment to 3 different ideal levels. Alternatively water heating can be completely turned OFF.

CHILD MODE

The child mode is a gentle automatic cycle of rear cleansing (40 sec.) and drying (180 sec.) adjusted to children's delicate needs and typical forward sitting position.

Fixed settings:

- Water temperature (as per general setting)
- Water flow pressure (level 1)
- Nozzle position (level 5)
- Air temperature (level 3)
- Air flow intensity (level 1)

AUTOMATIC MODE

The automatic mode is a standard automatic cycle of rear cleansing (20 sec.) with oscillating movement (20 sec.) and drying (180 sec.) adjusted to standard needs, it is ideal for elder people not familiar with technology.

Fixed settings:

- Water temperature (as per general setting)
- Water flow pressure (level 2)
- Nozzle position (level 3)
- Air temperature (level 3)
- Air flow intensity (level 1)

AUTO CLEANING NOZZLE

The spray wand and nozzle are cleaned automatically before and after each use, but is possible to run a 30 seconds auto cleaning cycle when desired. To extract the nozzle for a manual cleaning, press the button for 5 seconds.

RAK-CLEON / USER FRIENDLY CARE & MAINTENANCE

QUICK RELEASE SEAT COVER

Seat cover can be easily detached from the toilet, making it fast and easy to clean all the surrounding area.

NO HIDDEN CREVICES

All areas of RAK-Cleon can be easily reached, there are no hidden crevices making it easy to reach and clean.

WAND CLEANING

The spray wand and nozzle are cleaned automatically before and after each use, but is possible to run a 30 seconds auto cleaning cycle when desired.

WAND EXTRACTION

To extract the nozzle for a deeper manual cleaning, press the button for 5 seconds, the nozzle will remain in fully extended operating position for 180 seconds, with no water emission.

RAK-CLEON / EASY SERVICING

TOILET BASIC FUNCTIONS NEVER COMPROMISED

In case of no electrical power or system failure and consequent need of assistance from RAK Ceramics, the product can continue to be used. RAK-Cleon's basic toilet functions are never compromised: flushing, seating, soft close seat & cover and quick release.

TANK DRAINER PROGRAM

RAK-Cleon's tank (approx. 1,4L) automatically renews the water every 4 days of non-use, in order to ensure always safe and fresh water. In case of longer periods of non-use, it is possible to manually empty the water tank pressing the STOP button for 5 seconds. It takes approximately 2 minutes to complete the operation, afterwards it is recommendable to turn off the power from the main switch placed under the lid.

AUTOMATIC DESCALING PROGRAM

RAK-Cleon is programmed for a periodic automatic limestone removal, depending on the water quality. The water quality is verifiable with the water hardness test included in the product, to do during installation.

RAK-CLEON / TOILET FEATURES

SOFT CLOSE AND QUICK RELEASE

Seat cover closes on its own as soon as it is pushed down, it gently and slowly lowers to its closed position. It can be easily detached from the toilet, making it fast and easy to clean all the surrounding area.

HIDDEN FIXATIONS

Our wall hung and back to wall products are benefitting of the collaboration with Fischer Group, one of the industry leaders. The use of the most innovative Fischer fixing systems, is allowing us design freedom on the ceramic, better aesthetics and more safety for the installer.

REELFLUSH TECHNOLOGY

RAK-Cleon's RAK Ceramics delivers the ultimate in technology for bathroom suites. Based on similar design specifications to sanitaryware in hospitals and medical centres, RAK Ceramics Reelflush water closets allows you to experience the same high standards of hygiene in your own home.

HIDDEN WATER AND ELECTRIC SUPPLY

The water and electricity supplies are concealed behind the bowl; no cables or flexible hoses are visible on the installed product.

NIGHT LIGHT

RAK-Cleon's night light can be adjusted to guide the user to the toilet during night time, without needing to switch on the main bathroom light. It provides orientation and safety, without interrupting the body's repose. The LED light can be adjusted to 5 different intensity levels and 5 colors.

RAK-CLEON / ECO-FRIENDLY FEATURES

3 DIFFERENT ENERGY MODES

To suit your lifestyle RAK-Cleon features 3 types of energy saving modes: Super Eco, Eco and Normal. This flexible choice offers benefits in terms of energy saving and environmental policy. RAK Ceramics is constantly involved in the study of new solutions to reduce the amount of energy used, without jeopardizing the product performance.

SUPER ECO: unit warms the water only when user is detected.

ECO: unit keeps water constantly at 30°C and warms water to operating temperature only when user is detected.

NORMAL: unit keeps water constantly at the operating temperature.

ENERGY SAVER DEFAULT MODE

Nowadays sensitivity towards the environment and energy consumption, is growing. RAK-Cleon is set by default to Super Eco Mode and is environmentally friendly: the unit is always ready to use but consuming minimum levels of energy. It activates the water heating only when the radar detects the user in proximity of the toilet, with a very low environmental impact. In normal conditions, once the user is detected, it takes approximately 60 seconds to heat the water to the operating temperature.

NO CHEMICAL CLEANSERS

The RAK-Cleon stainless steel wand is self cleaning, using high pressure warm water jets, therefore it is not necessary the daily use of chemical additives for cleaning. This also makes the system maintenance free, it doesn't require to be filled with chemical substances.

EFFICIENT CLEANSING

The use of RAK-Cleon ensures a more efficient personal hygiene, reducing the use of wet wipes (or similar products) that aren't environmentally friendly.

LED LIGHTS

The system uses only LED highly energy efficient lighting technology. LED uses at least 75% less energy, and lasts 25 times longer, than incandescent lighting.

RAK-SKIN

WASH
BASINS

RAK-Skin represents more than just an exclusive collection of washbasins; it epitomizes a distinctive and avant-garde finishing touch. The innovative materials utilized possess a gentle, embracing quality, resulting in an extraordinarily refined aesthetic. The impact is truly unique, specially crafted for extraordinary environments. When paired with RAK Ceramics' bathroom furniture featuring wood-effect materials, RAK-Skin washbasins elevate the bathroom into a realm of exceptional comfort, achieved through a harmonious interplay of warm-toned finishes. Conversely, when adorned with the stone effect, the washbasins take on a starring role in creating contrast; the fusion of warm and cold hues yields a soft and soothing outcome.

FURNITURE

We play our role for a better environment and society

Sustainability in every sphere of business is one of the main elements of RAK Ceramics mission statement. The company is committed to practicing environmental stewardship throughout its manufacturing chain – from product design and efficient operations processes – and to playing an active role in building a better community by enhancing the surrounding environment. Organization’s activities improve energy efficiency, reduce pollution, enhance biodiversity and improve the quality of life for both people in the communities it operates in and for its workforce. It recycles natural raw materials to help conserve natural resources and adopts clean development mechanism (cdm) projects to reduce carbon emissions during the manufacturing process.

RAK Ceramics is the first ceramics manufacturing company in its region to produce a global reporting initiative (GRI) sustainability and corporate social responsibility (CSR) report, based on the latest GRI-g4 guidelines. RAK Ceramics is a founding member of Emirates Green Building Council, which supports the development of sustainable buildings in the UAE.

FROM RESPONSIBLE SOURCES FSC® CERTIFIED

The RAK-JOY wooden furniture collection respects the environment and the life of the furniture itself. All particleboard and MDF used in the construction of this striking furniture collection comes from responsible sources FSC certified, respecting the forests, the people and wildlife who call them home.

For more information: www.fsc.org

WATER INGRESS TEST

All external panels including doors and drawers are subjected to 10 cycles over 5 days to water ingress tests and pass against no swelling or degradation of the panels.

SUSTAINABILITY AND QUALITY

Wooden products are made of material from responsible sources FSC® certified.

Quality Management system certified for facilities, people, training, services and equipment.

High-quality furniture products you can trust

We strive to provide the best premium bathroom products that you can trust and count on. To do so, we ensure our products meet the most rigorous tests based on international quality regulations.

Within our furniture and mirror range, all external wooden panels including doors and drawers are subjected to 10 cycles over 5 days to water ingress tests and pass against no swelling or degradation of the panels. Our furniture products featuring drawer runners and hinges are also covered by lifetime warranty. In line with sustainable manufacturing practices, all wooden products are made of material from responsible sources FSC® certified.

We know that value starts with quality and you can trust our products will stand the test of time.

MATERIALS

LAMILAK

1 High quality lacquering

2 Colour decoration

3 FSC® certified MDF panel

4 PU glue to seal joints to prevent moisture ingress

LAMILAK is the new gloss material that exudes consistent quality and performance. The brilliant high gloss shine gives a striking smooth surface final appearance. To protect the environment, LAMILAK is produced from PET recyclable material.

TECHWOOD

1 3D wood effect

2 Colour decoration

3 FSC® certified MDF panel

4 PU glue to seal joints to prevent moisture ingress

TECHWOOD is the new wood effect material that gives the tactile impression of real wood. Revel in the touch and feel of its vibrant texture. To protect the environment, TECHWOOD is produced from polypropylene recyclable material.

RAK-PLANO CUSTOMIZATION

RAK-Plano surfaces made of RAKSOLID, are easy to cut and drill during the installation. The cut can easily be carried out on site by the installer, with common wood tools. RAK-Plano gives you the possibility to install the washbasin and the faucets in your favorite position and offers you the chance to change your mind onsite (before drilling) and to revise your project if needed.

SHOWER TRAYS

RAK-FEELING SHOWER TRAYS

SHOWER
TRAYS

RAK-Feeling is made of RAKSOLID, a durable material composed of a mixture of natural minerals and resins. The elegant matte finish with stone effect gives a distinctive feel to the shower area, as well as a pleasant to the touch and more anti-slip safety.

VERSATILE INSTALLATION

RAK-Feeling shower trays can be installed flush to floor, semi-recessed or directly onto the floor.. RAK-Feeling products are ideal for both new buildings and renovations, thanks to the minimum dimensions of 5.8 cm required under the shower tray for the waste.

RESISTANT TO CHEMICAL PRODUCTS

GLAZED ON 4 SIDES

REPAIR

RAK-Feeling is only 3cm thin and its surface inhibits the growth of bacteria and fungi to ensure greater safety and hygiene. All the shower trays feature excellent resistance to chemical products. This is confirmed by the strictest chemical resistance tests required by the EN 14527 standard. They are not affected by exposure to light. This is confirmed by xenon arc lamp tests, which simulate sunlight on shower trays and verify the effects of ageing (EN ISO 4892 standard). Our RAKSOLID material meets the highest safety standards, being classified in DIN 51097 Class C (the highest achievable level of slip resistance). It prevents slipping on surfaces with an inclination angle of more than 24°. In the event of chips and scratches, shower trays can be restored to their original condition using a special repair kit.

FLUSHING SYSTEMS

Can we save water in our bathrooms?

One of the easiest ways to save water is to install a toilet with a dual-flush cistern.

Dual-flush cisterns let the user choose how much water to use when flushing the toilet and they are designed for wall-hung, back-to-wall and close coupled water closets.

RAK Ceramics flushing systems, allow you to choose using the full flush or the half flush, with different flushing volumes: 6 Liters for the full and 3 Liters for the half flush. The cisterns can also be adjusted to flush with a reduced full flush volume at 4.5 Liters.

For countries with limited water resources, RAK Ceramics has developed innovative water closets perfectly flushing with a reduced 3 Liters single flush.

By using a lower volume of water to flush the toilet you can dramatically reduce your annual water consumption.

RAK-ECOFIX

FLUSHING SYSTEM

RAK-Ecofix Flushing systems by RAK Ceramics are the ideal solution for all types of hydro-sanitary systems. Invisible built-in flushing systems combine functionality and aesthetics, saving space in every bathroom. The new and elegant push plates integrate perfectly with any style and design of dual flush systems to reduce water consumption.

RAK-Ecofix not only offers limitless installation possibilities, but a flat designed range of push plates in 3 more elegant finishes and 2 different designs. The push plate is the only visible part of the concealed cistern and is built for the water saving dual system flush in volumes 6-3 liters or 4.5-3 liters. Another possibility to move functionality and style into your bathroom.

RAK-ECOFIX / FURNITURE CISTERNS & UNIVERSAL FRAME

RAK-Ecofix low height concealed cisterns are designed to fit even the smallest furniture units on the market. The easy to fit cistern can be accessed for maintenance simply through the removable front panel of the furniture unit, or from the top via a removable shelf.

Models

 Lateral Inlet
FS12SRAKSI

 Bottom Inlet
FS12SRAKBI

   FS04RAKC

Measurements

RAK-ECOFIX / URINAL FLUSH SENSORS

RAK-Ecofix range includes urinal electronic sensor system. The sensor automatically flushes the individual urinal after use, ensuring the highest level of hygiene from the minimum volume of water.

-    FS10RAK
-    FS10RAK10

Measurements

SOLID WALL INSTALLATION

The concealed cistern can be easily fastened in front of or inside a solid wall and then brick lined.

DRYWALL INSTALLATION

With a drywall system it is possible to create complete room-height prewalls or partitions.

RAK-Ecofix installation elements are suitable for solid constructions and for all drywall construction situations

12 cm wall-thickness

In the wall or in front of it, with flushing actuation from the front

8 cm wall-thickness

For thin walls or for space-saving installations, with flushing actuation from the front.

Low-height situations

Special element height 82 cm, with top or front flushing actuation.

TECHNICAL INFORMATION

APPLICATION

DETAILS

	FOR BACK TO WALL WC		WATER SUPPLY
	FOR WALL HUNG WC		FIXATIONS INCLUDED
	FOR BACK TO WALL BIDET		WALL ANCHORING INCLUDED
	FOR WALL HUNG BIDET		6L DUAL FLUSHING
	FOR URINAL		COMPATIBLE WITH 4.5L DUAL FLUSHING
	12 CM THICKNESS		3L DUAL FLUSHING
	8 CM THICKNESS		MOTION SENSOR
	82 CM HEIGHT		4x AA Battery
